| <p>1. Forwarded under separate cover as Attachment A are two LIENVOY transcripts of 12 November 1963 and two LIENVOY transcripts of 13 November 1963 which Headquarters may consider for transmittal to Station Stockholm.</p> <p>2. Forwarded under separate cover as Attachment B is a photograph of an unidentified male (who was accompanied by an unidentified female whose photograph the Station asset did not obtain) who visited the Soviet Embassy at 1400 hours on 12 November 1963. The Station believes this male is identical with Subject since the male in the photograph is the only unidentified male who was also accompanied by a woman and, secondly, this male appears to be a nordic type. The Station recognizes, however, that Subject may have only claimed to be a Swede for cover purposes.</p> <p>3. The following is the comment made by Douglas J. FEINGLASS, the Station's LIENVOY translator, concerning Attachment A:</p> <p>"The exact spelling of this name could not be determined. He started by saying that it is - W - A - N.. and then stopped, emphasizing the two dots above A. It is very strange that he, being a Swede did not seek the aid of his Swedish Consulate, but applied to the Soviet Embassy and asked for a man, whom he met by chance (?) in a restaurant. But stranger still is the response of the Embassy officials, who went out of their way to find a ship for him. Usually requests of this nature are brushed aside and quite often in a very rude manner. Judging from his non-British accent and almost flawless English, he must have lived in the United States or Canada for quite some time." (The Station REINWOOD officer agrees with FEINGLASS' comment regarding the usual reluctance of Soviet Embassy officials to help in a matter of this type.)</p> <p>4. Station Mexico has no record of any member of the Soviet Embassy travelling to Oaxaca during this period.</p> <p>5. Station Mexico has no traces on Subject.</p> | | | |

Headquarters will note from the above that three lines were disconnected in order to cover three Yugoslav lines. Two of the lines which were disconnected were Cuban Embassy lines, both were not in use by the Cubans. One was in the apartment which had been vacated by Ramon Sinobas and not occupied by other Cubans. The other was a telephone in the Cuban Embassy which was never answered. The Cubans are trying to get Sinobas' line moved to the Embassy. They have also asked for the telephone company to repair 14-92-14. As soon as these lines are working again, coverage of two of the Yugoslav Embassy lines will be dropped in order to pick up all the Cuban lines which are presumed to have a much higher priority.

3. Processing of LIENVOY Information

The Station continues to receive full transcripts in Spanish on the Cuban lines (three), the Soviet Embassy lines (five), and as of 18 and 23 September the Yugoslav lines (three). These transcripts are received each morning for the day before. During September, the LIENVOY monitors transcribed 1396 pages in addition to the daily resumen.

The outside translators now working on LIENVOY transcripts are Orville HORSFALL, staff agent, who is used for almost any backlog which begins to occur.

David B. SCHLAGETER, field contract agent, who transcribes the Czech take.

Victor W. OBOLD, career agent, who transcribes the Yugoslav portion of the Yugoslav take.

Douglas J. FEINGLASS, staff agent, who continues to transcribe the Russian language portion of the Soviet take.

4. Exploitation of LIENVOY Information

Two leads from LIENVOY of operational interest in September 1963 were:

PERSONALITY BRIEF

1. General Lazaro CARDENAS del Rio

As a pro-Communist, anti-United States former (1934-1940) President of Mexico, CARDENAS plays an important role in the political activities of Mexico by virtue of his being the spiritual leader of a great part of the Mexican left. His leftist sympathies appear to fall primarily with the current regime in Cuba (He allegedly is a close personal friend of Fidel CASTRO), secondarily with Communist China, and lastly with the USSR.

2. Braulio MALDONADO Sandez

MALDONADO is a politically unscrupulous pro-Communist former Governor of Baja California. He is a national leader of at least three Mexican leftist organizations: (1) FEP (People's Electoral Front), united single front of Mexican Communists and Leftists; (2) MLN (National Liberation Movement), rabidly anti-U.S., pro-Cuba Communist Front; and (3) CCI (Independent Peasants' Center), radical, anti-Mexican Government organization. Having been banished from Mexico until after the 1964 elections for anti-government activities, MALDONADO is currently in Europe and seeking admittance to the USSR, ostensibly to visit his daughter who is a student at the Friendship University in Moscow.

3. Alonso AGUILAR Monteverde

AGUILAR is a prominent pro-Communist Mexican intellectual who is the titular head of the MLN (National Liberation Movement), rabidly anti-U.S., pro-Communist front. He is a full-time professor at the National Autonomous University of Mexico and maintains active contact with several international leftist and Communist figures. He has recently travelled to Cuba and Warsaw.

4. Jorge Leonidas TAMAYO Castillejos

TAMAYO is a Communist professor at the National Autonomous University of Mexico. He is a leading member of many Communist front activities in Mexico including the CMP (Mexican Peace

50-6-75/3

Committee), the MLN (National Liberation Movement), and the CEM (Circle of Mexican Studies). He has been in contact with several leftist figures of various echelon, including Gen. Lazaro CARDENAS, the Cuban Ambassador to Mexico, and Polish, Soviet, and Chinese Communist officials. TAMAYO's son has studied in Warsaw and travelled to the USSR and Communist China.

5. Jose David ALFARO Siqueiros

ALFARO, one of Mexico's most prominent artists, has been imprisoned for eight (8) years as a consequence of the role he played in the Communist-inspired railroad strike of 1959. He is a leader of the PCM (Mexican Communist Party) and has visited the Soviet Union. He fought for the Loyalist Army in the Spanish Civil War and was later arrested in Mexico for complicity in the murder of Leon TROTSKY's secretary. ALFARO has a long history of pro-Communist, anti-U.S. leanings.

6. Roberto ROMERO Adams

ROMERO is an informant for the Cuban Intelligence Service in Mexico.

7. Enrique GONZALEZ Pedrero

Pro-Communist professor at the National Autonomous University of Mexico, GONZALEZ Pedrero has contributed to the writing or editing of at least five (5) leftist publications in Mexico. He is a member of the National Committee of the MLN, has allegedly received training in the Soviet Union, and has travelled to Cuba twice in recent times.

8. Ignacio ACOSTA Laguna

Pro-Communist ACOSTA, a lawyer, is an aide of General CARDENAS and a leading member of the MLN. He frequently has contact with high-level personnel of both the Cuban and Soviet Embassies in Mexico City. His political activities include travel to Cuba and the Soviet Union, aid in the management of the Communist Trade Fair in Mexico, and a great deal of participation in promoting sympathy for the Cuban Revolution in Mexico.

-3-

9. Direccion Federal de Seguridad - Federal Security Police

The principal functions of this security unit are to:
(1) Provide a plain-clothed security detail for the President,
(2) maintain an extensive telephone tap activity on both
the Rightist and Leftist political opposition forces, and
(3) perform investigations and arrests of primarily political
offenses. The unit's agents are largely poorly trained,
insecure, and unreliable. Their professional characteristics
are best described as being dishonest, cruel, and abusive.
The position, at this moment, of Manuel RANGEL Escamilla as
Director General of DFS is precarious.

10. Politica

A Marxist anti-U.S. semi-monthly magazine published in Mexico, Politica is printed by Talleres Graficos de Mexico, the same shop which prints La Voz de Mexico. In addition to the modest revenues derived from a circulation of 15,000 to 25,000, Politica is financed by the Soviet Embassy, the MLN, the PPS, and possibly, the Cuban Embassy. As an indication of the Mexican government's assessment of the capability of this magazine to influence public opinion, it is worthwhile noting that Politica frequently experiences a great degree of difficulty in printing and circulating itself due to the government's repressive efforts.

11. Movimiento de Liberacion Nacional (MLN)

Organized under the influence of the PCM in August 1961, the MLN today is dedicated to the furtherance of the mutual interests of its adherents who are found primarily in the ranks of the PRI, the PPS, the PCM, the CNC and the UGOCM. The MLN's objective is to gain leftist political representation in the government by inciting PRI to accept leftists into its camp. As a consequence of this objective, the mission of MLN is to generate evidence of popular leftist sympathy by means of fomenting agitation among the popular, labor, and peasant masses.

12. Confederacion de Trabajadores de la America Latina (CTAL)

The CTAL has recently been replaced by the CUTAL (Single Confederation of Latin American Workers). Until recently, the

pro-Communist, CTAL, which is described as being the liaison bureau of the WFTU (World Federation of Trade Unions) whose headquarters are in Prague, was headed by Vicente LOMBARDO Toledano.

13. Prensa Latina

Operating directly under the Cuban Communist regime, Prensa Latina is ostensibly a press service. In reality, however, it is the official propaganda organ of the Cuban Government. Prensa Latina works closely with Tass, the Soviet Agency; with Hsinhua, the Chinese Agency; and with Cetepka, the Czechoslovakian Agency.

1. Reference is made to your question about the type information needed on GUTIERREZ. Headquarters is interested in "current" information on his activities, and especially on his travels and his contact with Samuel VEGA Perez, Chief of G-2 at the Cuban Embassy in Mexico City. The comment on HNU-7289 regarded only the non-dissemination of the report, and was not intended to discourage the Station from reporting information on meetings between GUTIERREZ and VEGA.

2. Headquarters would appreciate receiving, on a continuing basis, pertinent information on GUTIERREZ extracted from the LISNVCY7 take.

MEMORANDUM FOR: Chief, Foreign Intelligence

SUBJECT: TDY to Mexico City

1. After taking a good look at LIENVOY and LIFEAT, I would agree with the persons I talked with in Mexico; they maintain that any well-run tap operation should produce substantial intelligence information, provided the targets are of intelligence interest, and provided also there are people at the station who look for it and are able to recognize it. The case of LIFEAT is interesting in this respect: It has been deprived of its most productive lines in favor of LIENVOY, and yet its intelligence production compares favorably, with that of the other productive taps, except LIENVOY.

2. Mexico has people who can detect any little item of intelligence significance. This includes the Chief of Station, who goes over the highlights of the previous day's take every morning and marks certain items for action by station case officers or reports officers. The reports officers work on copies of the take at the same time.

3. There are several aspects of LIENVOY that make it an excellent operation and an outstanding producer of intelligence. I will describe them in detail when my notes get here from the station. The principal factors in the success of LIENVOY seem to be the following.

a. The agreement made with top Mexican officials, unlike many such agreements elsewhere, is as much in effect today as it was at the start: the targeting is not based on personal politics; the intercept staff has stayed on the job; the equipment is considered to be on loan from CIA.

b. The native monitoring staff has reached a peak of effectiveness that everyone at the station praises very highly.

c. The station is organized to handle the take speedily as soon as it comes in. The Chief of Station, the case officers, the reports officers, all work on it at the same time and exchange views on hot items. They do not let reports backlog accumulate.

~~CONFIDENTIAL~~

~~SECRET~~

d. Each new item on a target person is linked to a past history; what appears as a fragmentary bit in a conversation becomes a meaningful development in a continuous story. Continuity on the job makes this possible.

e. The equipment is kept in good working order by complete cleaning and checking of each unit once a month. The 32 units in use today are those installed in 1959.

4. A detailed description of LIENVOY and its counterpart LIFEAT should provide good models with which to compare other tap operations. It should give criteria for good procedures. It should give some idea of the desirable size of such operations, considering the available targets, the size of the station, and the other tasks and operations of the station. It should show what the station puts into its tap operations and what it gets out of them. LIENVOY and LIFEAT are an interesting example of two interacting operations, one joint and the other independent.

5. My stay in Mexico was as interesting and fruitful as it was enjoyable. And I hope it was not too great a burden on the station.

DIZTAG diplomat stationed in Caracas planned to travel alone by plane to Mexico City via Panama carrying a diplomatic pouch for turnover in Mexico and return to Caracas with diplomatic mail received from DIZTAG couriers in Mexico. This was reported to Headquarters, Caracas, and Panama as a possible opportunity to obtain or copy these pouches. (MEXI-5681)

c. On 7 August this project revealed contact between the Partido Popular Socialista and the Soviet Embassy. Roberto JARAMILLO Flores, national leader of the Juventud Popular Socialista, the youth organization of the Marxist Partido Popular Socialista, arranged for an urgent meeting with Nikolaiy Sergeyevich LEONOV, Third Secretary and Cultural Officer of the Soviet Embassy. It will be recalled that LEONOV went to the Soviet Union and acted as interpreter for Fidel CASTRO on his visit there earlier this year. MEXI-5705 transmitted a report on JARAMILLO's contact with LEONOV.

d. On 5 August LIENVOY reported the presence in Mexico of one Doctor Paul BARAN who was in contact with Cuban Embassy officials and prominent Mexican Marxist intellectuals. BARAN appeared to be on a trip throughout South America. A check of Station files revealed that this was probably identical with Paul Alexander BARAN, Russian born naturalized U. S. citizen and professor of economics at Stanford University, Palo Alto, California. BARAN has visited Mexico in the past and made contact with American Communists and Mexican leftists. This information was sent to Headquarters in MEXI-5735 for dissemination to ODENVY.

e. On 12 August William ROSE, who identified himself as a student from the United States studying at the University of Mexico (UNAM) asked for an interview with Vicente LOMBARDO Toledano, Secretary General of the Popular Socialist Party (PPS). ROSE claimed to have letters of introduction to LOMBARDO from labor leaders in the United States. A check of Station files revealed William Maurice ROSE, 1474 Federal Way, Salt Lake City, Utah, as a student at the UNAM. This report was sent to Headquarters in MEXI-5752 for dissemination to ODENVY.

f. On 1 August Henry WALLSCHMIDT, 3662 Carrington Avenue, Los Angeles, California, contacted the Soviet Embassy and volunteered his services to them. The details of this contact were forwarded to Headquarters via MMMA-21905 for dissemination to ODENVY.

g. On 7 August a person who claimed to be a U.S. citizen with a name which sounded like ARNERO contacted the Soviet Embassy and referred to a previous visit at the Embassy when he discussed information on ship movements. He also asked for asylum and made an appointment to see Oleg NECHIPORENKO, Soviet Vice Consul and KGB officer. A person of American appearance was photographed by LIENVOY at the time of the arranged appointment. A sanitized copy of this photograph together with information from LIENVOY was passed locally to ODENVY. MEXI-5784 forwarded the report to Headquarters.

h. On 9 August LIENVOY reported that an American pilot with wife and small son were at the Cuban Embassy trying to get a visa to go to Cuba. MEXI-5794 reported details for Headquarters. ODENVY was advised locally after receiving Headquarters' authorization.

i. LIENVOY covered the activities of Barry Terry PRIMUS, New York actor who was expelled from Mexico on 19 August for participating in Marxist-Communist public disturbances on 18 August. See MEXI-5854 and 5855 for further details.

j. On 20 August Moe FISHMAN, Secretary of Veterans of the Lincoln Brigade in the U.S. asked the wife of David Alfaro SIQUEIROS how the Brigade could help free SIQUEIROS. FISHMAN also made an appointment to meet with Margarita NELKEN, prominent Spanish Communist exile. MEXI-5864 transmitted this report to Headquarters for dissemination to ODENVY.

5. Liaison.

As reported in reference Willard C. CURTIS met with LITENSOR to arrange for a sensitive PERUMEN case on 15 August 1963. The case is still pending.

LICENSOV, J. H. opp
13 September 1963

Mr. Whitten:

I just learned that Mr. George sent his note to Mr. Scott directly to Colonel King. The note mentions my pseudo, Paul V. Leverster.

Perhaps Col. Knig would want
to put down my tree name
somewhere, GERARD CAMPAGNA.

I read our L'ENVOY project file yesterday and got excellent additional information from Tex Puckett. It's always encouraging to get into such good operations

Jerry Campagna

Next week I would like to read further into HANNOY and LIFEAT, especially the monthly reports and the disseminated reports.

14 00000
12 September 1963

Dear Willard:

This may seem to you like a voice out of the void, but I always carry in my mind your repeated invitations to visit you and remember clearly your acquaintance and kindness to my brother. Strangely enough it seems to continue to be true that the only escape from this jail-like desk is back to my old area where I never expected to return--I even had one this Spring. Just now I have a specific reason for wanting to visit your place, that is, in addition to our own personal reasons.

For some time I have been bent on trying to push for more positive information from taps and audio. I realize that it is taken for granted around the world that the purpose of taps and audio is for operational leads, particularly in the KUDISK field.

In one or two places in the world, positive production is outstanding and we have been making a study for some time trying to see why it works in some cases and not in others. One of the outstanding examples is LIFEAT and especially LIENVOL. These seem to be far ahead of other similar operations around the world even though they seem to approach the problem somewhat similarly. It occurred to me that we might find out what makes yours so especially effective by having one of my people go to your station for a few days to talk with you and your officers and get the detailed story. I could then take another look at the other operations and see what's missing or what's wrong. I'm sure this would be of great help to the place as a whole. If you agree, I will send Paul V. Levister (Iden), the editor of our Foreign Intelligence Series (our Staff doctrinal papers, the first few of which have been dispatched to you). He could be in Mexico City on or about 23 September, or any time thereafter that is more convenient for you and your people. Could you let us know your reaction by cable, and if it's favorable, when you would prefer to have Levister arrive. We would confirm his ETA by cable.

14 00000

Galbond is leaving tomorrow to make a visit down your way and I have asked him to be kind enough to pass this to you. The desk here concur in our interest subject to your approval.

On 7 August 1963 the Station EE case officer requested LIENVOY coverage of the Yugoslav lines. Arrangements are being made to put these lines in within the near future.

3. Processing of LIENVOY Information.

The Station continues to receive full transcripts in Spanish from ten lines (five Cuban Embassy and five Soviet Embassy). DIR-60764 dated 13 August 1963 asked the Station to send to Headquarters one copy of the full transcripts from the Cuban Embassy lines. These are being forwarded on a weekly basis. The first group is being forwarded as an attachment to HMMA-22000 dated 21 August 1963. If they do not please Headquarters officers who desire them, it is requested that the Mexico Station be promptly advised with any suggestions for changes.

On 6 August 1963 Orville HORSFALL, staff agent, arrived in Mexico to work presently as a unilateral monitor but eventually as the supervisor of a tap center either under LIENVOY or LITEMPO. He has established himself outside and is presently at work eliminating the backlog of Soviet tapes.

Douglas J. FEINGLASS continues to do the Russian from LIENVOY, the Russian from two LIFEAT lines on Soviet targets, and the Russian from the LIPAWN audio operation. In addition, FEINGLASS sends clipped transcripts to the Station ready for 201 files.

4. Exploitation of LIENVOY Information.

HMMW-11831 dated 6 August 1963 indicated that Headquarters was not well informed on the way the Mexico Station exploits operational leads from LIENVOY. The outside staff agent, Arnold AREHART has instructions to alert the Station immediately if a U.S. citizen or English speaking person tries to contact any of the target installations. This is done by a telephone call from outside the tap center at a pay phone to Robert B. RIGGS inside the Station. Emergency meetings are arranged in double talk (meeting for coffee or lunch). RIGGS meets AREHART within fifteen minutes at a pre-arranged downtown location and receives the reel with an extract of the pertinent conversation. The reel is then taken to the Station and given to the case officer responsible for the target the person was trying to contact. Headquarters is notified by cable of the action taken. Only in rare cases is information on a U.S. citizen passed without prior Headquarters approval.

DISPATCH~~SECRET~~

HIMMA-22005

Other leads appear in the full transcripts or daily resumen. They also are exploited by the Station case officer responsible for the target where the lead appears. For example, on 12 August 1963 Boris KAZANTSEV, recently arrived Counselor of the Soviet Embassy and former defection target in Mexico, called his wife at their residence. The number was not listed but was immediately checked by Raymond GERENDE who determined that the number was the switchboard of the apartment house where KAZANTSEV and several other families live. The reason the Station checked out this number was to put unilateral coverage on it if possible; however, the switchboard was beyond the Station's capability to handle.

Maryknoll priest Felix McGOWAN contacted the Cuban Embassy on 31 July 1963. MEXI-5565 reported details of this contact. This cable was sent to Headquarters for dissemination and action by ODENVY.

Professor WEBB (fnu) of the University of Louisiana contacted Mexican Communist Jorge L. TAMAYO Castillejos, prominent Mexican Marxist intellectual and professor at the University of Mexico, and arranged to meet with him on 31 July 1963. MEXI-5568 reported this contact to Headquarters for dissemination and action by ODENVY.

Bartolo (fnu) contacted former Governor of Baja California, Braulio MALDONADO Sandez on 16 July 1963 regarding the sale of Cuban pesos. MEXI-5569 reported this contact to Headquarters for dissemination and action by ODENVY.

5. Liaison

On 15 August 1963 Willard C. CURTIS met with LITENSOR to arrange for a sensitive PBRUMEN case (MEXI-5789 reported the details of this meeting).

6. Security

There were no security incidents within the project during this month.

7. Technical

There were no technical problems during this period.

8. Personnel

Orville HORSFALL's arrival is the only change in personnel since the last report and he is handled as an independent agent by the Station, with no LIENVOY personnel aware of his presence in Mexico. Robert B. RIGGS sees HORSFALL daily to deliver and pick up tapes.

9. Production

There is attached a list of reports, cables and dispatches forwarded to Headquarters during this month.

ACTION REQUIRED: REFERENCES

References: A: MEXI 5448
B: MEXI 5467

1. The referenced cables describe two recent incidents in which the Mexico City Station made use of LIENVOY information to take investigative or punitive action against security suspects. The first reference reported the identifying and "trapping" of a PEPREME citizen who was offering his services to the Cuban Embassy, and the second reported the deporting of a Cuban IS agent identified by LIENVOY material.

2. In both of these cases, there seems to have been departure from the extreme caution with which the Mexico Station has always handled the LIENVOY material. Admitting that the cables do not set out enough facts to enable us to make a final judgment, we still feel a little uneasy about this use of LIENVOY material. In the first case, the Station sent an agent to the suspect's hotel, posing as a Cuban Embassy official to "trap" him into revealing his intentions. The scheme, which was admittedly clever, succeeded, but we were concerned about what would have happened if the Cubans themselves had decided to contact the individual. Would not the LIENVOY operation have been exposed to some extent? We grant that the Cubans and other bloc personnel in Mexico City may suspect LIENVOY exists, but they do not know it --- yet. Incidentally, we had no traces on the PEPREME involved.

3. The second case involved the detection, apprehension and deportation of a Cuban IS agent whose whereabouts were learned through LIENVOY. From the few facts we know about this case, we cannot really judge the possible risk to LIENVOY. The Mexico Station created LIENVOY and has always guarded its security with scrupulous care. Has there been a change?

4. Finally, please note that both these cases should have been reported to Headquarters before action was taken. In general, arrests, deportation, trapping, or other action against security suspects should be approved by Headquarters, except where in the opinion of the Chief of Station, the added time needed would seriously impair ODYOME security or the security of our operations. The Mexico Station has always done this, and the coincidence of two recent cases where it was not done inspires us to query you. Please let us know your views.

| <p>On 5 June 1963 Douglas J. FEINGLASS, Staff Agent, arrived in Mexico to replace Howard G. SAFARANO, the Station translator for Russian language conversations appearing on LIENVOY and LIFEAT lines. SAFARANO departed PCS on 18 June thus freeing an inside slot for use by an operations officer. FEINGLASS' usefulness to the Station is handicapped by his inability to transcribe the Spanish portion of the recls from the Soviet coverage. This, despite Headquarters assurance that he could do these transcriptions. However, he has settled into outside living conditions with a minimum of difficulty. For the present, a monitor from the LIENVOY tap center is transcribing the Spanish portion of the above take. There is a Station backlog of Soviet tapes numbering about 50 which accumulated during the period when FEINGLASS was trying unsuccessfully to transcribe the Spanish. The backlog is being retained until Orville HORSFALL arrives. In addition to the Russian transcriptions, FEINGLASS also helps the transcripts for individual dossiers thus relieving the Station Case Officer for Soviet operations of a clerical task. After the arrival of HORSFALL, the Mexico Station will review requirements for outside translators and make recommendations for future use of FEINGLASS.</p> <p>In early June to support the AMROD operation, the Station requested full transcripts of the Cuban Embassy lines. In addition, Thomas G. URQUHART (ps) while on temporary duty in Mexico was given access to the LIENVOY tap center to review the traffic on a current basis.</p> <p>4. Exploitation of LIENVOY information.</p> <p>Coverage of the Cuban, Czech, and Soviet Embassies provided details of their personnel, their contacts, travel and other useful CE data. In most all cases of official travel, LIENVOY gave the Station advance information when reservations were made. Confirmation of the travel is, of course, obtained through the LIFIRE project.</p> <p>The traffic is reviewed for English speaking persons who might be U.S. citizens making contact with Soviet or Soviet Satellite Embassies for political or other reasons. On 20 May 1963 an English speaker identifying himself as Albert Kennedy called the Soviet Embassy and requested political asylum for himself, his wife and seven children. Subsequent investigation revealed that he was also a protection case at the U.S. Embassy in Mexico. Appropriate U.S. agencies were advised of Subject's contact with the Soviet Embassy.</p> <p>5. Liaison.</p> <p>During this reporting period there were no meetings between the Chief of Station KUBARK and LITENSOR; however, regular contact was maintained with LIELEGANT and LIERGO.</p> <p>6. Security.</p> <p>There were no security incidents within the project during this month. As reported in MEXI-5170, 26 June 1963, the true name of a KUBARK case officer was revealed to the Cuban Embassy by a caller who refused to identify himself. From the transcript it appeared that the Cuban Embassy was not interested in making contact with the caller who claimed to have details of KUBARK operations in Mexico.</p> <p>7. Technical.</p> <p>Arnold AREHART, staff agent, has kept the equipment working.</p> | | |

effectively. As Headquarters is being advised by separate cable, the Mexico Station does not plan to replace the present LIENVOY equipment until the next Presidential candidate is named, assuming of course that this will occur within the next few weeks.

8. Personnel.

On 17 June Robert B. RIGGS resumed meeting Arnold AREHART and routine case officer functions for LIENVOY. Gregory PARMUTH meets Douglas J. FEINGLASS daily to deliver and receive the Soviet Embassy traffic. PARMUTH's assistance in obtaining living quarters and necessary sterile office furniture was responsible for the ease with which FEINGLASS was able to settle into his outside staff agent status.

In the opinion of Thomas G. URQUHART, who has spent some time inside the tap center, Arnold F. AREHART is doing a commendable job in the management of the center. In addition, AREHART has a general awareness of the take from each line. When leads of interest appear, he notifies the Station immediately so that action can be taken.

Willard C. CURTIS contacts LIENVOY-2 when the Station desires contact with the Mexicans directly or when AREHART is absent.

9. Production.

The volume of paper produced by this project is hardly reflected in formal disseminations, operational cables, and dispatches which numbered 39 during June. The daily summaries, the transcripts from two Czech lines, five Soviet lines, and five Cuban lines are retained for background use in Station files. They could be more fully exploited for reporting purposes if personnel were available.

There is attached a list of reports, cables and dispatches forwarded to Headquarters during this month.

Willard C. CURTIS

- 07:58 El Ing. J. M. VIGOREX pregunta por el periodista ALBERTO VILLETTA. La sirvienta dice que todavía se encuentra dormido. VILLETTA deja el siguiente recado: "que no vaya a la cita que tenía hoy en su despacho pues se acordó cancelarla hasta que yo hable con él".
- 09:46 VIGOREX hace una pregunta al Licenciado RUBEN LÓPEZ sobre si ya leyó la memoria, respondió que el artículo de hoy en la revista tiene de fondo lo que él dice. El licenciado y VIGOREX que se acuerda el caso, pero que aún calzando tiene un humorito muy bueno, donde dice que PELÁEZ lo recuerda. Continúa RUBEN LÓPEZ diciendo que le responderá con argumentos objetivos y conscientes para mucha en la cosa personal, e invitando el punto de volver nuevamente sobre la ley fiscalista. Cambia de tema VIGOREX pregunta que qué le parece la situación, responde dando su al artículo de él en siempre. RUBEN LÓPEZ explica que el trámite y que es lo único que importa de todo esto, es que el que "de allí habiera pedido cumplir un cuarto y medio de la jerarquía y demás; el artículo es muy favorable y favorable por el tratado a MÉJICO, como por el acuerdo de la Comisión". VIGOREX considera que lo de la Comisión es favorable dice que lo "fue klarizo". El Ing. VIGOREX dice que "el Dr. RUBEN LÓPEZ llama la atención". Tres horas y media de reunión con RUBEN LÓPEZ que "de lo otro luego platicaré, pues en principio, se aceptó la instalación de nuevos diputados; ayer en la reunión, y aunque no se discutieron individualmente los candidatos, sí se aceptó en principio la lista".
- 09:55 El Ing. VIGOREX pregunta a la Embajada Cubana por el Dr. RUBEN LÓPEZ. En contacto RUBEN LÓPEZ pregunta a su vez a RUBEN LÓPEZ cuáles son las cosas que le mandó. RUBEN LÓPEZ explica y agrega que "dijo que el punto que las cosas se han resuelto". El Ing. VIGOREX pregunta lo que le comunicaba el Dr. RUBEN LÓPEZ. RUBEN LÓPEZ dice que lo que le pasó fué que por desgracia tuvo que quedarse en un hotel anterior al Dr. RUBEN LÓPEZ con el Dr. RUBEN LÓPEZ. Es una situación similar en tanto porque tomó el Dr. RUBEN LÓPEZ el Dr. RUBEN LÓPEZ pero varió el Dr. RUBEN LÓPEZ se quedó". El Ing. VIGOREX manda dejar el Dr. RUBEN LÓPEZ la vereda. RUBEN LÓPEZ dice que está en otro lugar como por ejemplo en el Dr. RUBEN LÓPEZ en las calles de Misiones por el Dr. RUBEN LÓPEZ. El Ing. VIGOREX dice que él tiene un surgo suavemente el Dr. RUBEN LÓPEZ con tiempo y le gustaría que fuera lo más pronto posible. RUBEN LÓPEZ dice que ahorita mismo como a las diez de la noche. RUBEN LÓPEZ calzando que está vestido con un traje gris y zapatos.
- 10:00 El Ing. VIGOREX pregunta a la Embajada Cubana, preguntada por el Dr. RUBEN LÓPEZ, que el Dr. RUBEN LÓPEZ informa que ha visto y que tiene que regresar a México, pero sugiere a RUBEN LÓPEZ como

MACHO se pone en contacto con MINISTRO DE LA DEFENSA, quien manifiesta que la carta que quedó de enviarle al General no la mandará hasta la semana entrante, ya que casi todas estos últimos días ha estado muy enfermo. MACHO se lo comunicará al Gral. CARRERA. → P-1493

14:28

MACHO AVILA-GOMEZ comunica al Lic. FRANCISCO AGUILAR y al Dr. GUILLERMO VILLALBA, de parte del Gral. CARRERA, que mañana por ser dia de las madres no resultaría conveniente que se vieran, además de que el General tiene otro compromiso previo. Por tal motivo los espera el sábado a las 12:00 hs. en su casa de los Andes. Ambos aceptan estar presentes. Posteriormente el Dr. VILLALBA indica al Lic. FRANCISCO AGUILAR y al Dr. GUILLERMO VILLALBA que en vista de que el sábado tendrá que ir a casa del Gral. CARRERA se pospone la reunión que tenía prevista.

14:34

VICTOR HUGO CALVO queda en desayunar mañana con MACHO AGUSTIN a las 09:30 hs. en Scatton's de Durango. → P-1493

19:09

FRANCISCO AGUILAR dice a MACHO AGUSTIN que AVILA tiene un texto que le pide que haga el mismo favor de ayer. MACHO indica que ya lo recogió y lo distribuyó. AGUILAR comenta que está bien, pues es una cosa que tiene actualidad.

19:41

FRANCISCO AGUILAR felicita calorosamente a ALBERTO VILLALBA por el documento de hoy, es excelente. AGUILAR le pregunta que si leyó lo del mitote que se armó con la I.D.U allí (AGUILAR fué a la sesión plenaria del Congreso de procuradores con un ramo de rosas). VILLALBA asiente. AGUILAR dice que la cosa está un poco cambiada, pero estuvo sensacional. VILLALBA la felicitaivamente "qué bueno que no te denuncien". AGUILAR comenta que "no, tengo que seguir luchando", y afirma que a VILLALBA le significó el documento del I.D.U. VILLALBA indica que lo escribió ALBERTO VILLALBA, y a pesar de que andaba con muchos lados, parece que viene por buen camino, de eso estoy seguro. → P-1493

21:14

Donde la Escuela de Ciencias Políticas, Luis Villalba dice a ALBERTO VILLALBA quien se encuentra en el A.F., que está platicando con los estudiantes y quieren ir a salvador 36. VILLALBA no los puede esperar pues tiene un compromiso a las 22:00 hs. Luis pone a ALBERTO en contacto con el estudiante JACINTO. VILLALBA explica que en la última reunión se llegó al acuerdo de que el Comité del D.F., sea el órgano por el Comité Nacional y como a mí se nombraron encargado de la Comisión de Organización del Movimiento, quiere platicar en contacto con ustedes para llevar adelante lo de las brigadas, así como para que inviten a muchachos serios y respetables que quieran dar parte de su tiempo al Movimiento. VILLALBA propone conversar ampliamente el sábado en la S.U.

- 09:50 Una mujer con acento norteamericano que dice ser amiga de JUAN MOLINA, pide al Lic. ALFONSO VILLALBA la ayuda en un problema muy urgente. VILLALBA le pregunta verás esta tarde a las 17:30 hs. en la planta baja del edificio del Movimiento. La mujer concurren. *manuel m. copia 1*
- 09:50 Un estudiante de la Universidad, con acento sudamericano, manifiesta a VILLALBA la Embajada cubana, que necesita verlo porque necesita despachar unas cosas. VILLALBA le sugiere verlo mañana a las 07:30 hs. El estudiante acepta esa hora, pues más tarde tiene clase. Ambos quedan de verse como de costumbre "en el número uno". *N.Y. copia 1*
- 12:00 Un ayudante de FERNANDO JIMÉNEZ se comunica al 27-23-61 (Rodolfo Jiménez Pachas, Mar Blanco, 69-5) y dice al Sr. JIMÉNEZ que "está esperando la propaganda". JIMÉNEZ le indica que ya está lista y que dentro de un rato se las llevará. *copia 1*
- 12:09 EDGARO DÍAZ DE MARÍA, de Ovaciones, quisiera que el Lic. VILLALBA, quien representa un sector fuerte en la política, le hiciera unas declaraciones sobre las protestas que están de publicarse. MARÍA, después de consultar, dice que como la cosa es de mucha importancia, mañana se reunirá la dirección del Partido y el lunes se sabrá quién declaraciones van a expedir. *copia 1*
- 12:16 El Gral. CARMEN SALDAÑA saluda al Lic. VILLALBA y le agradece la atención que tuvo con el caso de la Comisión, así como la indicación que le hizo sobre cómo resolver el problema. SALDAÑA dice que fue de acuerdo con la propia indicación del Lic. JUAN MOLINA. Agradece que estima ancho el horario de llamadas, y le brinda la oportunidad de conocer el inestimable programa de CARMEN para la Comisión del Lic. Páldas. CARMEN dice que son propuestas del señor Presidente por el deseo que tiene de ayudar a México y sobre todo aquella parte de la Mixteca que es una de las zonas más marginadas que hay en el país, y de gente con mucha pobreza; y el programa se presentó por la iniciativa del señor Presidente para este año. Le agradece sus frases de estímulo, la incluye afectuosamente y se pone a sus órdenes. VILLALBA replica que al contrario "soy yo quien está a las suyas, oficial y privadamente". *copia 1* *53/s*
- 13:02 HECTOR AMARO, de Prensa Latina, dice que ROBERTO GARCIA, de la Revista Política, que fué a hablar con JOSE MIGUEL VILLALBA del Instituto Nacional de la Vivienda y "no trajo su nombre, le dijeron una orientación anónima sobre el voto que dio Miró, y no quiere él que se publique bajo su nombre, ¿verdad?". AMARO comprende y cree que debe haber servido la información. *copia 1* *53/s*

- (5315)* TA dice que como no. Agrega que ~~EL MUNDO~~ informó en que quiere una colección completa de la Revista Política, pero parece que sólo hay ya encuadrada. EL MUNDO va a ver eso. ANAYA pasará por las oficinas de la Revista hoy a las 16:30 hs.
- 16:00 RAFAEL cyudante del Lic. ~~EL MUNDO~~ pregunta a la imprenta Laura, sita en Fernando Alva Ixtlixochitl 145-A si el libro del Lic. MADERO ya ha sido impreso. El cochino del Sr. DÍAZ informa que ya y que pueden mandar a recoger una muestra para que lo lea, corrija y dé su autorización, además de que necesita la manzana algo de dinero.
- 17:52 PULMÁNTUR *(1034)* pide a MADERO, del Consulado de Cuba en Veracruz que tome nota de que en comunicación num. 05861 de fecha 6 de mayo se le concedió visa de turista a ALDO MARÍA SILVA VASQUEZ. Cambiando de tema PULMÁNTUR indica que irá a pasar el domingo a Veracruz pues "no hace falta ver a ni gente", por tal motivo saldrá el sábado en la noche en el autobus y regresará el domingo en la noche por avión. MADERO toma nota de todo.
- 18:10 *(1691)* El Lic. ~~JOAQUÍN TAPIA~~ comentó con MARÍA TRUJILLO *(1035)* que ayer tocó parte en una Mesa Redonda, que él en principio creyó se trataba de una conferencia solamente, pero resultó que como a las 6 de la tarde lo llamaron para recordarle que debería asistir a la Mesa Redonda. De fin así lo hizo y se estancó que en el mediodía se sintió enfermo al caliz del Instituto Francés ya se sintió perfectamente. Agrega que él nunca en su vida había ido a dicho Instituto y tenía interés en ver qué clase de público asistía y grande fué su sorpresa al ver allí a SILVIA ESTEVEZ, RENE Y FERNANDO y unas cinco o seis historiadores pero afortunadamente esto no salió bien.
- 18:15 *(1035)* ~~XIMÉNEZ~~ del periódico El Maestro tiene interés en saber qué recibió el Lic. ~~JOAQUÍN TAPIA~~ de concederle una entrevista. MARÍA despues de consultar indica que el licenciado saldrá de la ciudad a descansar y que el lunes lo esperará a las 13:00 hs.
- 18:24 *(762)* ADRIANA ~~ESTEVEZ~~ pregunta a MARÍA *(1035)* si el documento que hicieron esta mañana los comunitarios fue revisado por "el maestro". MARÍA no sabe y comunica a ADRIANA con su señ. ADRIANA pregunta que si va a ir a ver a ese señor. La señora responde que le hablaron para pedirle su opinión sobre el asunto y que él tiene la impresión de que Silván está molestandola, pero que tal vez lo hayan llamado para preguntarle cuáles son sus pretensiones y le ofreciera otra ofta. Irónicamente la pregunten que extensión necesita. ADRIANA pregunta que si quiere que lo mande esos datos. LOPEZ dice

que no es necesario pre colocarlos en los de fer fer teléfonos.
ADRIANA indica que se necesitan dos salones, uno para teatro
y cine y otro para conferencias, por lo menos 10 salones de
clase, otro cuarto para biblioteca y lo que es indispensable
es un salón para los compañeros que viene de fuera a estudiar
los cursos intensivos, pues "el año pasado tuvimos en un cuarto
de 3x3 a cincuenta compañeros". LOURDES toma nota de todo esto.
Cambiando de tema ADRIANA informa que hoy en la mañana habló
con el Lic. ALONSO y éste le dijo que no había tenido oportu-
nidad de entregar el oficio al Lic. ALMANSO; así que ADRI-
ANA sugiere a su papá que llame directamente al Lic. ALMANSO.

A las 19:05 FERNANDO GARCIA preguntó a ESTELA IGUILAS por
ALONSO. ESTELA informó que salió hace un momento, que iba a
poner gasolina al coche y de allí iba al M.I.E. donde tenía
una cita. GARCIA dice que no ha llegado al Movimiento, pues
incluso no hay quien abra las oficinas. ESTELA se alarma.
Posteriormente ESTELA ha estado tratando de comunicarse a las
oficinas del M.I.E. sin lograrlo. A las 20:33 GARCIA vuelve
a preguntar a ESTELA por ALONSO. ESTELA indica que no le ha
localizado y que él teme ha llamado a la casa y esto ya
la está preocupando, agregando que esperará una hora más.

CAMINERO comenta con el Lic. AGUILAR que anclie estuvo preocurado. éste indica que se fué a Torquemada para la tecnología en la que tuvo una cita, al calle Florida. Cambiando de tema AGUILAR pregunta que si vio el último numero de Avante. AGUILAR niega. CAMINERO agrega que "el ilustre licenciado vuelve a meterse con nosotros". AGUILAR pregunta que en qué forma. CAMINERO dice que segundo nuevamente que el PPS esté en el M.L.N., adicás trae una entrevista que el Lic. LOMBARDO se casó al Saturday Evening Post "de lo más chistosa" y CAMINERO hasta ha pensado en difamarlo en su artículo. AGUILAR dice que es muy raro, pues él vió hace unos días un documento de la J.O.C.M. de Altar Bon. en que manifiestan no comprender la actitud de sus dirigentes en contra del M.L.N. y hasta califican dicha actitud de anti-patriótica. CAMINERO insiste no tener dicho documento en su poder y los pide a AGUILAR para colocarlos en su artículo. AGUILAR no está de acuerdo con CAMINERO ya que eso sería tanto como colocar a esas gentes contra la pared y "nuestra actitud debe ser al contrario, dejando tratar de irnosles ganando a ellos y a todos los que se pueda". CAMINERO dice que entonces solo colocaría contra la pared al Lic. LOMBARDO, pero que de todas maneras lo justificaría que AGUILAR revisara el próximo artículo antes de entregarlo. AGUILAR está de acuerdo y a las órdenes de CAMINERO.

09:03

El tico JOSÉ CAMINERO comenta que trabaja en Frohsa Latinam, pregunta al Lic. AGUILAR si se interesa por la suscripción del boletín Árido informativo de Freia. CAMINERO manifiesta que desea obtener del Boletín un intercambio de noticias. FREIA le comenta que el precio para las noticias es mayor cuando se trata para periódicos "además de que da impresión nuestra no está controlada por nosotros, sino la controlan la Habana". CAMINERO dice que desea la información y que es corresponsal de la Asociación Extranjera de Prensa y del Comité de Liberación Popular-cubano. FREIA responde que podría arreglar que la tarifa del boletín, anteriormente Árido y Siglo XXI sea especial. AGUILAR acepta y pide a FREIA que pase a Monteón Franklin #32 de to. 3 para que lo entre que el cheque y que los periódicos se les envíe a la dirección de su escuela que está en las calles de Av. Julián.

10:20

AGUILAR dice que desde la casa del Lic. José Caminero pide al Lic. Julian que es esposo de este informa que su señora es la Lic. Martina pregunta que si querría a encargar algunos trabajos (de imprenta). La señora no sabe que es el primeramente a la Imprenta. Posteriormente AGUILAR le pide ponerse en contacto con CAMINERO y éste manifiesta que va para la casa de BRASILIO.

- 10:40 RUMIRAS con acento centroamericano pregunta a R. JUANES de la Embajada de Cuba que si en el avión de ayer no llegó nadie moreno de su visto. R. JUANES sin contestar a su pregunta le indica que venga a la Embajada, pero que adelante media hora a la que habían fijado. RUMIRAS allí estará.
- 12:10 RAQUEL necesita con urgencia para el próximo número de Polisíca fotografías de las reuniones que ha habido en la Asociación Mexicana de periodistas en relación a la fez y además todos los discursos de FIDEL CASTRO en Rusia. Con respecto a lo primero BOLIVIA se las proporcionará. Con respecto a lo segundo ALBERTO procurará conseguirlos y en caso contrario sugiere a RAQUEL se ponga en contacto con ~~FERNANDO GARCIA~~ a su casa. Posteriormente ALBERTO indica a RAQUEL que ya le tiene una revista Bohemia y dos periódicos europeos que contienen algunos de los discursos de FIDEL en Rusia, solo que se los facilitará en calidad de préstamo pues son de FAMILIA FRANCESA. RAQUEL mandará a ~~GARCIA~~ por el material. (335) (445)
- 13:39 La Dra. MATILDE ROSSI pregunta a ALBERTO GARCIA que si no sabe si el Dr. ALBERTO GARCIA es miembro del M.L.N. pues desde ayer lo sacaron de su cuarto en el Hospital Colonia unos agentes de la Procuraduría y se lo llevaron, incluso del mismo hospital se han interesado mucho por su paradero pero no han sabido nada. MATILDE dice que ese nombre no le suena, pero de todos modos lo pondrá en conocimiento de ALBERTO. (335) (445)
- 15:53 Raquel MAIZ, de la Embajada Cubana, se comunica con el gobernador FERNANDO GARCIA y le indica que lo han destinado nuevamente aquí; que lo han ascendido y está mejor en todo sentido; que llegó ayer procedente de Guayaquil; agrega que ha estado tratando de comunicarse con ALBERTO GARCIA, pero no le contactan en el banco; y pregunta si se siguen reuniendo los miércoles. GARCIA responde que si. MAIZ irá el próximo miércoles para reunirse con los amigos.
- 20:34 Fernando GARCIA pregunta a ALBERTO GARCIA que cómo se encuentra DAVID. AUGUSTA dice que más o menos pasándolo, pues no hay ninguna cosa ni ninguna novedad por el momento. GARCIA comenta que "por cierto la señora que entra quiere ver si publicamos ese papel de sus te doy; todo dependerá de que podamos juntar los centavos". Cambiando de tema dice que sería bueno que DAVID tuviera en la celda uno de esos aparatos inalámbricos "Walky Talky" para poder comunicarse con todos. AUGUSTA pregunta que si realmente se podría. GARCIA dice que lo sabe bien, pero sería cosa de que AUGUSTA lo consultara con un amigo que sepa; por ejemplo el hijo de DAVID, FERNANDO GARCIA, que es un buen electrónico, pues a lo mejor si se pudiera. Agregó que esos aparatos tienen un radio como de 5 kilómetros.

metros. ANGELICA dice que le acusaría hasta la cara y sería fantástico; lo saldría es que estuviera hablando todo el tiempo y ya no habría ni acción ni trabajo porque él la iba a enterar preguntando a cada rato que dónde se sentía. CAROLINA cree que sí habría acción, pues DAVID a cada rato estaría preguntando qué pasó con el abogado; qué pasó con CAROLINA; qué pasó con ALONSO, etc. ANGELICA dice que sería tremendo; pero si además le arreglaran un sistema para que DAVID "hablara con todos ustedes!". CAROLINA comenta que si éso fuera posible, ya sería lo de menos. ANGELICA cambia de tema e indica que de todas maneras quisiera platicar con CAROLINA la semana entrante, porque DAVID insiste en una serie de cosas, desde el punto de vista de la cosa electoral, y ANGELICA quisiera cambiar impresiones. CAROLINA arguye que "nosotros tenemos una posición allí que creímos que él entendía mejor". ANGELICA argumenta que independientemente de éso, ella cree que si hay algo que se pueda hacer. CAROLINA dice que "estamos en la encésima fase de reorganización; pero es que no tiene remedio; éso hay que entenderlo; en ésto hay que arrancarse de paciencia; algunos compañeros pierden la paciencia, de los nuestros mismos muy buenos, como MONTAÑO por ejemplo.....yo hasta lo decía: si me doy mil veces horas-examinado estar cosas y doscientas mil más las vamos a tener que examinar si ro las resolveremos bien; éso no tiene remedio". ANGELICA de todas maneras quisiera conversar con CAROLINA. Este arguye que "pero estamos en pleno proceso de reorganización y espero que en dos o tres semanas se va a sentir ésto. A partir del mes que entra yo me voy a hacer cargo del periódico, con el ánimo de hacerlo muy modesto pero que salga quincenalmente". ANGELICA dice que éso será formidable, y a ver si la semana entrante se ven un ratito, pues ella le quiere plantear algunas cosas bastante interesantes. CAROLINA acepta.

20:45 *Copyto RIVIA* MANUEL RAMOS, desde Jalónica, Calif., quiere comunicarse con CAROLINA. CAROLINA la esposa dice que éste no se encuentra en la Capital. MANUEL dice que llegó con felicidad y llamaba a EMILIO para ver si éste ya se comunicó con el JAMES a Cactus Grandes, Arizona, pues es muy urgente que así lo haga "y me escriba a mí lo más pronto que pueda para ver si le dije al JAMES lo que yo le digo en la carta que le manda". CAROLINA dice que EMILIO ya recibió su carta, pero que va a estar fuera de México unos 10 días. MANUEL dice que están puestos para lo que sea. CAROLINA indica que por allá ha mandado EMILIO variada propaganda, folletos y todo eso. CAROLINA dice que está bien, pues él necesita de éso. Termina deseándoles mucha suerte.

21:02 Una mujer que dice llamar desde el restaurante Janilmo en Culiacán, Calif. dice que EMILIO MONTAÑO quiere hablar con EMILIO MONTAÑO. CAROLINA indica que está fuera de la ciu-

dad. La mujer pregunta que si se encuentra por aca RAFAEL, un muchacho que viene de Culiacán a buscar al LICENCIADO. CARLO dice que qui a la casa no, que tal vez a la oficina, pero que allí no tienen teléfono. Asimismo le recomienda que le diga a ese señor ENRIQUE ALMENDRAZ que esté pendiente, porque el Licenciado les va a llegar por allí, pues va a recorrer muchos lugares; va hasta Sonora.

1. Returned herewith are two reels of LIENVOY coverage of the Cuban Embassy which were forwarded to Headquarters by the referenced dispatch.
2. Three conversations, including the SINOBAS/SCANTLING contact on 8 April 1963 have been excised from EC 11, 8 April, for retention at Headquarters. The conversations immediately before and after the SCANTLING contact were taken out so as not to pinpoint possible interest in that contact.
3. The Station's support in providing these documentary materials is greatly appreciated.

FYI

1. Forwarded herewith are brief digests of Cuban Embassy calls monitored through LIENVOY during the first days of April 1963 by Thomas G. URQUHART.
2. A copy of this dispatch with attachment is being sent to COS Panama at his request because of that Station's interest in ARELLANO.
3. Owing to the occasional lack of logging, it was not always possible to ascertain the exact date a particular conversation took place. Hence, some of the summaries are attributed to a period greater than one day.

HIGHLIGHTS OF LIENVOY COVERAGE OF CUBAN
EMBASSY, EARLY APRIL 1963

2 or 3 April 63

A man whose name sounds like "Specia" calls Vega, says he must see him very urgently. They will meet at 1400 or 1430.

Victor Rico Galan holds what appears to be social chatter with Sinobas. They mention a mutual friend (unnamed) and note things are getting better.

A man identified only as Horacio calls Buenaventura (Reyes). They talk about hotels and agree to meet at the Embassy at 1730.

The Bolivian Embassy calls for Sinobas about the case of a man named Arrellano or Arellano. Sinobas is out. Bolivian Embassy asks to be called back at telephone 14 08 56.

(Comment: Arrellano is of special interest to PACY)

Maria Lourdes de la Pena calls for Teresa Proenza, who is out. On a further conversation mention is made of Maria Elena (Vazquez Gomez?) and the two parties agree to meet at 2030 at some place located at the corner of Hamburgo and Genova.

Teresa Proenza calls to the fronton for Jose Luis "Azamendi" (probably a jai-alai player). He is out. She leaves a message for him that there is a letter for him at the Cuban Embassy for his daughter and he can come for it.

Vicente Rojo calls Proenza about the bulletin. An envelope was left at the Embassy gate.

Mirna Torres calls Buenaventura Reyes and they hold a sociable talk. She wants to send a package and letter (probably to Cuba) and they discuss the arrival of the plane 6 April. She says she will bring the things to the Embassy before that.

The Bolivian Embassy calls for Sinobas. He is out. (This probably has to do with the Arellano case).

Miss Gomez Sanchez calls for Sinobas, who is out.

Dr. Jaime Brana (visiting Cuban doctor) calls Hotel Carmen room 40 for someone and gets no answer. He then asks for the Cuban nurse in apt. 5, whose name is Graciela "Guty". She is also out. Brana says he wants to speak with Marta Valdez, something about the medical congress.

Brana calls Dr. Fausto Trejo, with whom he seems to have some social relationship. Trejo is out. Brana asks the woman who answers if he left a Czech notebook from KOVO firm at their home. She looks and says she does not see it there.

~~SECRET~~

Guillermo Gomez calls for Vega. Gomez is the man who left a letter this morning, which was a letter Vega asked for. Their business seems to have to do with passport and visa details. Gomez travels a lot and will call back when in town, possibly tomorrow.

A number of calls show that Heberto Jorrin, the gate man, has a local girlfriend he sees quite often and who also visits him at the Embassy. Her name is not known.

4 April 1963

Elena Vasquez Gomez and Teresa Proenza agreed to dine this evening.

Teresa Proenza spoke to someone about a passage to Cuba for one Margarita Calderon.

Celia Pascual, telephone 25 10 32, describing herself as the sister of Sara, calls Teresa Proenza. Celia says she can take some things over to "Edith" when she goes (presumably to Cuba). Someone's mother is sick.

(Comment: This could refer to Edith Buchaca, whose preoccupation with her mother has been noted in the past).

5 April 1963

Asuncion in Havana calls Mariano Garcia. The connection is very poor and the Havana end is hard to understand. They mention travel approval for Rafael (?) Hernandez at telephone 35 44 35 and mention something was arranged for Eduardo Rodriguez de la Vega.

A woman identifying herself only as Socorro calls for Vega about a matter she says he already knows of. He is out.

An American or Canadian calls long distance and says he plans to leave wherever he is, probably Los Angeles, Cal., via Western Airlines, for Mexico.

Immediately after this call someone in the Embassy mentions reservations for Fred Brown from Canada.

Sinobas calls Tomas Marentes, who is out. Sinobas leaves the message that "Ramon called". (Marentes may be the former Governor of Yucatan. He has a plan to send money or passages to someone in Cuba. Sinobas is very anxious to help him and makes a lot of calls about how to do it. Marentes has told Sinobas he has a son working for Humberto Roauro at the Presidencia, indicating the son is at Sinobas's disposition. How much this is a matter of mere courtesy could not be determined).

Arellano (the Bolivian deal) calls for Sinobas, who is out, and then asks for Vega. He asks Vega if there is any news, and Vega tells him to drop by on 7 April.

Miss Gomez Arias calls for Sinobas. He is out but will be right back.

One Mario or Mariano Zevada or Cebada for Sinobas. They talk about a plan the caller had to send money for passage to someone in Cuba and how the bank in Cuba has stated it is impossible.

Sinobas calls the Bolivian Ambassador about Arellano, who is going to travel from one country to another.

Dolores Gomez Arias to Sinobas (first name basis). She seems to be a journalist, says she wants to meet him to tell him some things.

6 April 1963

No conversations of salient interest noted.

7 April 1963

Largely taken up with several conversations between Jorrin and his girl-friend.

8 April 1963

Angel Hidalgo calls in for Vega, who is out. It appears Hidalgo and a couple of others are to drop by the Embassy in connection with passports and visas.

An unidentified man inside calls Cubana de Aviacion about a Canadian named Fred Brown who was around to ask about a visa. The man at Cubana says that he knows nothing of the matter.

Armona calls Fred Brown at the Hotel Agnes. He is paged in the restaurant. Armona and someone else will drop by the hotel for Brown at 1645. Brown speaks very little Spanish.

B. Material Processed

In January, the LIENVOY LP provided the Station with 47 pages of daily resumes from all lines, 10 pages from the Cuban lines, 26 pages from the Czech lines and 57 pages from the Soviet lines. Thirty two pieces of other information were also received.

A total of 285 reels of recording tape were used during the month. (Note F, Technical).

C. Liaison

The Station continues to provide LITENSOR with situation reports on the Red Chinese-Indian border dispute.

D. Exploitation of Material

Examples of information provided by LIENVOY were the beginnings and organization of the Central Campesina Independiente (CCI) (see MEXIs 3041 and 3053) and the contact made by a Hollywood television station with the Cuban Embassy in Mexico City in order to set up an interview with Fidel Castro. (see MEXI 3244).

E. Security

There were no known security problems.

F. Technical

The LP was inoperative from 8 January until 18 January. Workmen installing street lights in the neighborhood of the LP cut the cable leading from the telephone contral to the LP in several places. Instead of replacing the damaged cable with a new one, telephone company workmen painstakingly repaired it. By the end of the month there were still seven lines out of operation.

G. Production

During January, LIENVOY produced twenty-three (23) reports listed in the attachment. In addition the usual quantity (except for the ten days lost by inoperation - see E above) of CE and biographic materials were obtained.

B. Material Processed

In November, the LIENVOY LP provided the Station with 131 pages of daily resumes from all lines, 78 pages from the Cuban lines, 47 pages from the Czech lines and 110 pages from the Soviet lines. In addition, all of the Soviet and Czech tapes were turned over for the translations of the Russian and Czech conversations. Thirty pieces of miscellaneous material were also received.

C. Liaison

In addition to the PB Band reports passed to LITENSOR, the Station also passed situation reports to him on the India-Red Chinese border war. LITENSOR requested the Station to check a report which LITENSOR had received that 22 boxcars of ammunition was being shipped into Mexico from the United States. (See MEXI 2683)

On 5 November 1962 Chief of Station met with LITENSOR at the request of Ambassador MANN. LITENSOR had LITEMPO/2 sit in on the meeting. Ambassador MANN prepared a memorandum based upon a Department of State cable which The Ambassador asked Chief of Station to read to (but not to leave with) LITENSOR. When Chief of Station told LITENSOR that he was to read the telegram (which concerned GPIDEAL's statements and position on Cuba) to him, LITENSOR asked if he could dictate what Chief of Station read to him into his (new) dictaphone. This he did. Both LITENSOR and LITEMPO/2 were pleased with the strong, definite and concise position of GPIDEAL. They were also grateful that Ambassador MANN had got permission to give them this report.

D. Exploitation of Material

Samples of information obtained during the month shed some light on the private life of Carlos Lechuga, Cuban Ambassador to the United Nations, (see MEXI 2701) and the involvement of Braulio Maldonado Sandez in the uprisings in the State of Guerrero. (See MEXI 2713)

E. Security

There were no known security problems.

F. Technical

Likewise, there were not technical problems.

G. Production

During November, LIENVOY produced the eighteen (18) reports listed in the attachment. The usual large amount of CI/CE personality and operational material was obtained.

In /From Moscow/ Kal calling from Moscow introduces himself to Samokhin as Kalugin. Kal says that he is in the office that prepares material for San to turn over to the press. Kal wants to have better contact with San. Kal says that San has to give his preferences to Kal on the kinds of articles that he wants for the press. Kal will be calling San to the telephone about two times a month. And then San can tell Kal what his preferences are in the way of articles. Secondly, Kal wants San to be more observing in informing Kal what is being printed in /Mexico/. That those articles be sent to Kal. Kal says "we" see that there is considerable that is being printed /in Mexico/. But whatever San sends to Kal is very irregularly sent. San says that "we" always gave quarterly reports. Now San is being asked for monthly reports. /seems there part of conversation missing/ Kal says for San to send him a two-word cable saying when San wants Kal to call. Then Kal will call San. For instance, if San has anything // to request, then he could send the cable. Kal asks if, for instance, San has any questions right now. San says yes, he would like Kal to send him material on the communists. San wants general material by specialists. Kal says that much has been sent to San. San says unfortunately, no. Not enough. San says it would be well if Kal could get // together articles by Nikoleyev and Popovich themselves. With their signature to the articles. For instance, a greeting to the Mexican // reader. "And with their signature /to the article/." Kal asks if San wants this addressed to the reader "of our periodical?" San says no, simply to the Mexican reader. This can be published any periodical. Kal will do this. San says he wants articles on the situation of education - the middle education, the special education, and higher education. These articles to be based on specialists writing them. Not popular articles. San wants information of middle, higher and technical schools. "We are being asked for such material." San would also like articles on culture and art. Articles not about some specific art or cultural matter, but the problems in culture and art. San wants that more specialized articles be sent to him. Articles for the specialized reader. Kal understands. San then asks when his replacement will be coming. Kal can't answer that. Kal says that he will call San on the 10th. Kal will try to give San an answer. San says he would like very much articles by Nikoleyev and Popovich. San wants the photos of them also. Kal repeats that he wants very much commentary articles. San says this is very difficult to do for the month. "Because not so much is published." Kal asks that nevertheless everything be sent for the month that is published. Kal asks San to send these articles by air mail. Very well. Kal says that there articles that have to be answered. San asks Kal to give his regards to the comrades.

In Schkolovskaya asks Samokhin if she can come over. Yes.

Samokhin asks Yegorov if there will be any mail today. Yeg says no.

| | Operational/Soviet LIENVOY Product | | ABSTRACT | |

ACTION REQUIRED REFERENCES

Action: See paragraph 4 below

1. Transmitted herewith, for purposes of Headquarters familiarization, is a typical one day LIENVOY product of the Soviet lines. (Note that the Station has additional LIFEAT coverage on the personal lines of Colonel Aleksandr Leonidovich SIDOROV and Svyatoslav Fedorovich KUZNETSOV, and on the office line of Vladimir Ivanovich SAMOKHIN).

2. Except for the weekend period, the Spanish language transcript reaches the Soviet case officer on the day following the actual transcription - at the most usually two days after the transcription. The Station's Russian language translator transcribes the Russian language portions immediately, and this product reaches the Soviet case officer about an hour or two after receipt of the Spanish reporting. Simultaneously, flimsy copies of the above have been given to the reports officer and to other interested Station officers. The first copy is kept in a Station chrono file, for purposes of permanent record. It is annotated for ZONAR purposes.

3. The Soviet officer, Lucy A. Dillinier, and other officers, read the product quickly for the immediate purpose of obtaining exploitable LCIMPROVE or other operational leads, and/or reportable intelligence. After this initial scanning, the product is literally cut up, with each clipping of significant conversation sent to COS and to various Station officers for their information and/or action. Whenever pertinent, the actual LIENVOY clip is sent to Headquarters, for information or action - or a summary of the clip is sent to Headquarters in dispatch form. Each clip is eventually routed to the Station's registry where indexing and filing is completed.

4. The Station finds that this Soviet LIENVOY clipping program provides the files on the individual Soviet staffers with a rather good picture of their activities and personality. (These individual files are of course augmented with information derived from double agent operations, LIEMPTY reporting, Headquarters provided information, ODACID reporting, newspaper clippings and other miscellaneous reporting). In many cases, however, the backbone of a Station file on a Soviet may derive principally from bits and pieces of LIENVOY product.

Category station files receive the clips pertaining to Soviet commercial activities, propaganda activities, Soviet contacts, etc. Very often, a single clipping may have to be copied to be sent to the files of several individual Soviets and/or to one or more category files.

5. Unfortunately, the Station does not have sufficient personnel available to analyze and collate periodically the LIENVOY and other Station product in the individual Soviet files for transmittal to Headquarters for its information; or possibly more important, for eventual transmittal to another Station where a Soviet from Mexico City is reassigned. Headquarters attention is directed again to MEXI-9885 of 17 January 1962 and allied correspondence regarding the desirability of having a trained Headquarters TDYer work on these materials at the Station. Headquarters may now wish to reinvestigate the possibility of finding a qualified staffer for this TDY assignment.

The Cuban efforts at propaganda in Mexico in which the Cuban Ambassador to Mexico conferred with Raul Roa, Cuban Foreign Minister, and suggested to him that Fidel Castro write a short message to the Mexican people in Siempre on its ninth anniversary of publication (see HMMA 19399).

The negative treatment to a Czech commercial representative by Mexican Immigration authorities (see HMMA 19158).

The refusal by the Pan American Institute of Geography and History of the Organization of American States to permit Teresa Proenza Proenza, Third Secretary and Cultural Attaché at the Cuban Embassy, to attend the meeting held by it (see HMM 6438).

The embarrassment caused by the immoral behavior of Mexican female delegates to the Cuban 26 July celebration held in Havana in 1961 according to Manuel Marcue Parinas of the periodical Politica as told to Teresa Proenza Proenza.

D. Liaison

With the approach of the GPIDEAL visit to Mexico 29 June - 1 July, liaison activities greatly increased. COS visited LITENSOR on 28 June. LITENSOR assured that there would be no problems in the GPIDEAL visit and the safety of GPIDEAL was guaranteed and in the hands of LITENSOR. At this meeting LITENSOR indicated his annoyance with the Cubans. (See MEXI 1253).

LIELEGANT turned over to the Chief of Station a list of persons who were put under surveillance in connection with the GPIDEAL visit. The list also indicated those who were arrested. (See MEXIs 1244 and 1264).

At a meeting held on 28 May 1962, the Chief of Station, LIELEGANT, and LIENVOY/2 met with LIENVOY/1 and obtained his agreement to hire LIENVOY/14 to work under LIENVOY/3 as a technical inspector in Telefonos de Mexico. The purpose in putting LIENVOY/14 in this capacity is to have a man who would be more available to the LIENVOY Project and who "would see what others might be tapping telephones" in Telefonos de Mexico. Furthermore, LIENVOY/1 agreed to see to it that LIENVOY/14 would have "the range and authority" to do the work.

Putting LIENVOY/14 as a technical inspector within Telefonos, could recreate problems for the LIFEAT Project. At the same time WILSTED is re-studying the LIFEAT system, improving it, tightening up the security and alerting the base houses to watch for any abnormal activity on present taps. It has been understood by the LIENVOY case officer that this has been done and it will be reported from time to time in future LIENVOY reports.

E. Security

For a report on security of the LIENVOY site for June 1962, see paragraph 2 E of HMMA-19319 (RYBAT-1897) dated 10 July 1962.

As was stated at the end of that paragraph, any surveillance or security threat of the LIENVOY basehouse or personnel can eventually be handled, should this be found necessary, by Chief of Station to LITENSOR.

F. Technical

The floor in the LP was recently covered with a linoleum which has

| REFERENCE | <p>A. HMMS 2430 B. MEXI 0346</p> <p>1. As requested in reference, the station has polled all Station Case officers for possible or confirmed cases of surveillance while making operational contacts. The poll indicated five (5) cases of surveillance during recent months. For the sake of clarity and to give Headquarters an exact idea of the circumstances surrounding each incident, this report will treat each case individually with station comments pertinent to each case.</p> <p>2. The five cases of possible or confirmed surveillance, related in the first person, are as follows:</p> <p>A. <u>Lewis J. SHOQUIST</u>: 15 May 1962</p> <p>"Following a meeting with Francis R. HEGARTY at the Hotel Alameda this date I noticed a Mexican standing quite close to us as we were discussing innocuous subjects just before parting. This fellow moved over and joined another Mexican who was standing at the Juarez Avenue entrance to the Alameda Hotel. I called HEGARTY's attention to these two and suggested that he leave, being very careful to check himself, while I checked these fellows to be absolutely certain they were interested in us. HEGARTY crossed Juarez and took a cab. Neither of the two Mexicans showed any interest in his movements or made any type of observable signal. I walked back into the Hotel and spent about five minutes browsing in the magazine shop then left the hotel by the side entrance. As I departed I glanced toward Juarez Avenue and saw one of the same two fellows who had been at the Juarez entrance nudge the other and call his attention to me. These two fellows had moved in order to check both hotel entrances from the same spot. I walked to an arcade directly across from the hotel entrance and pretended to be looking in shop windows. I saw both Mexicans position themselves so as to observe the arcade. I made no attempt to disrupt the surveillance, being interested instead, in determining definitely that I was the target. As I moved out of the arcade, the two above fingered on to another pair of Mexicans who followed me as I moved through the Los Americas parking lot to Calle Independencia. For the next hour and one half to two hours I took these boys on a long tour, mostly on foot. I checked them by starting up streets then changing my mind and doubling back, following an erratic pattern as if shopping aimlessly, stopping in bookshops for periods during which they were forced to stand around somewhat obviously ours do, etc. Briefly, it can be summarized by saying that there were at least five members of this team definitely on the surveillance, two others I am quite sure were involved, and one other about whom I am not absolutely sure. When, in my mind, there was no doubt whatsoever that I was the target I caught a taxi and headed toward Reforma Avenue, then to Rio Tiber St., and then toward Melchor Ocampo Street. As I changed my mind, I had the driver cut over to Sullivan St. to Shirley Courts where I went in and had lunch. During the cab ride I did not spot car surveillance but, shortly after my arrival at Shirley Courts, I saw three new men not previously on the job, whose actions indicated they were on me. I paid my bill, went into the bathroom for a minute then left through the covered garage and out into Villalongon St. in back of Shirley Courts. Once</p> | | |

out of the Courts, I walked rapidly out of sight of the exit and checked myself for the next ten minutes but could not detect further surveillance. I then walked up to Reforma, caught a cab, got off across the street from the Roble Theater, walked into the drug store at the Hotel Reforma, then out the front entrance, down to Woolworth's, through Woolworth's to the back entrance, up to Pasaje Latinoamericano, into the pasaje where I stopped at a small counter shop to check as I made a purchase, then retraced my steps to Calle Madrid, on up to Reforma where I turned into the Reforma entrance to Sanborn's, checked for surveillance, then into the Embassy by the entrance from Sanborn's through the perfume section. There is no doubt whatsoever that these men were on me. The surveillance was not sophisticated from the standpoint of keeping me unaware, but was a very persistent one with these men not getting lost on the simpler tricks. Regardless of who is controlling these fellows, I have cancelled all operational contacts for today and will contact HEGARTY, Oliver Q. WIMPHEN and Simon D. CLACKETT tonight or early tomorrow morning to set up entirely new contact arrangements with each. I plan to make my contacts either early in the mornings or later at night in areas where surveillance can be spotted easily. I will instruct all agents to be unusually careful in checking before making any meetings, either with other agents or with me and that if there is any suspicion of surveillance skip the contact and check later at the alternate contact point. In each case, if clear by the time of the alternate meeting. I called HEGARTY from a pay phone last night and set up an early morning contact with him to check on whether or not he was followed when he left the Hotel Alameda yesterday. HEGARTY said that he checked carefully but that there was no indication of interest in him. This is quite a relief since it now appears that I must have been picked up at the Embassy and that I, not HEGARTY, was the target. I cautioned HEGARTY to be even more careful than ever in his approaches to the LINLUCK safehouse and told him that, in our contacts, I was setting up entirely new contact arrangements immediately and that we would not use previous points uptown again. HEGARTY was told that we would use previously agreed upon points in the Balanco-Lomas area, that each point and time for the next meeting would be agreed upon at the previous one to avoid phone use as much as possible, and that most of our meetings would be held before 0900 hours or, when that not feasible, after dark. I suggested that he also inform LINLUCK that I had been under surveillance of some persistence and that he (LINLUCK) should be even more careful than ever in his contacts with HEGARTY, and in his approaches to the safehouse. I met WIMPHEN and CLACKETT later that same morning and made similar new contact arrangements with them and advised them of the even greater need for caution. I also advised them to park at least two to three blocks from points of contact and walk in, checking carefully before and after parking to be sure they are not surveilled and, if there is any suspicion of surveillance, do not make contact but make the alternate later if clear by them."

B. Algernon O. FORTYUNE, 14 November 1961

The above-mentioned noted on the night of 14 November 1961 at approximately 2100 hours what seemed to be a suspicious situation in attempting to service the LINLUCK safehouse. As indicated on the attached diagram, the subject parked his automobile two blocks away as indicated on the diagram and approached the target by way of Panuco Street. In the approach run the subject noted a blue Fiat parked at the corner of Lerma and Hudson Streets with two male occupants. As the undersigned, on foot, approached the corner of Panuco and Hudson he noticed another Fiat parked at the very corner with three occupants. Remembering the other Fiat at the end of the block, which was quite visible from the corner of Panuco and Hudson, the undersigned decided to delay entry into the safehouse and casually walk down the block. The undersigned cut across Hudson Street to avoid walking close to the parked car and as he walked on Lerma, noticed the presence of a slow moving car behind him. This did not arouse too much suspicion since this area apparently specializes in street walkers and the local "tenorios" cruise the streets looking for them. As the undersigned reached the parked Q.P. car at the corner of Lerma and Duero the slow moving auto came abreast of the car and the driver almost stopped and stared at the undersigned as he attempted to unlock the car to depart the area. By this time the undersigned got suspicious and attempted to read the license plate, but the plate illumination bulb was out on the suspicious vehicle. The undersigned got in his own car, started down Lerma, passed the suspicious car which immediately fell in behind the undersigned. Not convinced yet of the intent of the following car, the undersigned drove toward Mississippi and made like he was continuing down on Lerma. At the last moment the undersigned swerved into Mississippi, narrowly missing getting clobbered by a vehicle coming down Mississippi. The suspicious vehicle, who was right behind, had to gun his auto to get out of the way so that he had to go straight across Lerma. The undersigned noted as he made the sudden turn into Mississippi that the other vehicle braked as soon as he passed Mississippi and, it seemed to the undersigned, was backing up toward Mississippi. At this point the undersigned poured the coal into the old Green Hornet and left the area. The undersigned then went to the Polanco Bowling Alley instead of home, bowled for approximately an hour and then returned at 2300 hours to inspect the area of action once more. The area was completely free of any parked autos. The undersigned cruised around the area for approximately 35 minutes but could not spot either one of the two Fiats.

Conclusions: (a) As previously stated, there may have been nothing to this incident, and perhaps the autos in question were merely the joy cars looking for customers, but at any rate the set-up looked suspicious therefore the undersigned did not service the safehouse in question.

(b) Douglas NISLEY reported to the undersigned that his records that a suspected Polish intelligence agent, Josef DEJ, resided at Hudson 11, two doors down from the LINLUCK safehouse. It is possible that the surveillance may have been on DEJ and that the undersigned blundered into an unpleasant situation.

(c) LINLUCK reported on 14 November 1961 that it was possible that he was under surveillance and it is possible that he was followed to the safehouse.

Francis P. HEGARTY, the regular case officer handling LINLUCK made the following comments pertinent to FORTUNE's report of possible surveillance:

"On 22 November, HEGARTY visited safehouse at Rio Hudson to remove the typewriter and paper and inform the maid in charge that he intended to leave the apartment on the following day and also to arrange for the payment of the light bill which was due. After arranging these matters, HEGARTY left the safehouse and purposefully took a circuitous route to his car, which had been parked more than a block away on another street. HEGARTY turned two corners and crossed two streets and detected an individual, Mexican in appearance, approximately six feet tall, 170 lbs., brown hair, ruddy complexion, wearing a tan suit and open sport shirt, and carrying a manila folder in his left hand, walking about 30 feet behind him. HEGARTY walked past his car and turned a third corner and walked rapidly to the middle of the block and then turned in his tracks. When HEGARTY reached the last corner he had turned he almost ran into the individual described above. The man opened his eyes wide, hesitated in mid-stride, but then kept on walking in the direction he had been going. HEGARTY walked to his car and after making sure that the individual did not turn back, immediately left the area." HEGARTY is certain that the safehouse at Rio Hudson was not under surveillance up until 10 November, the last time he visited it previously, and that the surveillance is on the house and not on himself.

Station Comment: See 2 a (Conclusions) above. In a later check of this area by HEGARTY, he could detect no surveillance either stationary or moving. SHOQUIST, however, instructed him to get a new safehouse for LINLUCK meetings immediately following his 22 November report and for neither he nor LINLUCK to go near the Rio Hudson safehouse again.

C. Andrew F. MERTON, 1 June 1962

"On 1 June 1962, while leaving a meeting with LITAU-1, I detected what could have been a possible surveillance. The meeting was in the Cafe Blanca on Juarez Avenue, between Lafragua Street and the Caballito Monument. Upon leaving the meeting, to which I had arrived "clean" to the best of my knowledge, I noted a peculiar flash of expression in the face of a tall, young, dark-haired man apparently waiting in the doorway for something. I had left the meeting first, leaving LITAU-1 to pay the check. Upon noting the expression I had a hunch that something funny might be going on. I turned right out of the door of the cafe and walked the short distance to the corner of Juarez and Reforma, doubling around the corner to the right. This left me on the north side of Reforma headed west in which direction I walked about a block. Two good-looking girls passed me headed south, and observing a good old Latin custom, I suddenly swiveled my head to watch them from the rear. I noted that my tall, dark-haired young man was behind me. As he acted that I could see him he suddenly turned right into a store which sells roof water tanks.

a fairly obvious maneuver, or so it appeared. I reported it, and towards the Embassy but at a very slow pace, like being interested in the snow outside. A few minutes later as friend passed me briefly walking towards Reforma and la Praga, which latter street he crossed, eventually turning left and crossing the Reforma itself. I did a little counter-surveillance myself but soon lost the subject who disappeared somewhere down Avenida M Morelos. My "surveillant" was about 30 or 30 years old, dark tan skin, youthful looking, well-dressed in a dark suit and slightly nervous in his actions. While the whole matter could be coincidence, his action in shaking into the stairs, not just turning in as if engaged in legitimate business, made me suspect him all the more. If he were really a surveillant, he must have been on LITAU-1 rather than myself, since the Station had been alerted as to possible surveillance and I was checking myself".

D. Jeremy L. NIARCOS

Jeremy L. NIARCOS reported sometime in May, 1962 that he had spotted what definitely seemed like a one-man surveillance on him. Since he is presently on home leave the submission of a detailed report on the incident will be deferred until his return to duty.

E. Arnold P. ARPHART/LIENVOY

"On Friday 15 June 1962, at approximately 0930, the concierge noticed two men standing on the corner of Tonala and Chihuahua, who seemed to have an unusual interest in the activity of the L.P. They were standing directly across the street from the L.P. One of the men was tall and thin with a mustache, well dressed and appeared to be about 30 or 30 years of age. The other was a short fat man and wore a white shirt coat of the Veracruz type and appeared to be around 50 years of age. They stood on the corner of Tonala and Chihuahua for about an hour and showed a great deal of interest in the activity of our building. Around 1030 hours the tall man left and later returned in a 1955 Fiat model 1200, with a brown body and a light top, with District Plates number 21-73-26. Both of these men then proceeded to observe our installation from the car, and from time to time appeared to be making notes on the comings and goings of the installation, as well as asking notes on the cars used by the personnel of the L.P. At about 1230 hours ARPHART left the L.P. to make a phone call and to see if any attempt would be made to follow any cars leaving the building. No attempt was made to follow ARPHART, however, his actions were observed from the car through the rear view mirror. Upon ARPHART's return to the building it was noticed that the men appeared to be making notes in a small note book. Finally, around 1330 the tall man drove off in the car and the fat one took up a new position, about 50 to 100 feet down the block on Chihuahua where he could observe the front door of the LP. Around 1500 when the first shift was leaving, LIENVOY 16 left to go to lunch and was followed down Chihuahua. On spotting the surveillance he returned to the office. Just as he returned to the office LIENVOY 2 returned to the office and was told of the incident. LIENVOY 2 and LIENVOY 14 immediately approached the fat man (who had also returned to his former position), and asked him to explain his action of the day. They also asked him to identify himself. He showed them a driver's license with the name MARIANO VERA GONZALEZ. This information was checked at the Department of Traffic and found to be the license of another person. At this time it was decided to establish a stake out at the Traffic Department in order to discover and identify anyone who might show an interest in the names and addresses of the cars used by our installation. On the 16th of June, Unit "C" (Victor) informed LIENVOY 2 that around 1300 hours an old friend of his, Guillermo MUÑOZ SAMANIEGO, who was an agent of the Secret Service of the Policia Nacional, showed up and said that he was looking for a Mister MOYO in order to obtain some information about the owner of a car with District Plates 723 (LIENVOY 2). Victor suggested that they check the files for the information. However, the information was not available. During their conversation Guillermo MUÑOZ stated that he worked as a supervisor of the medical services of the Central Department and showed Victor his credentials signed by Dr. Julian GARCIA TELLEZ. He also said that he had another job at the Health Department. While they were talking, another agent passed by and asked MUÑOZ to give his

ALVARO ARCE PIZARRO. Since the 15th there have been no further attempts to place any individual under surveillance that have been noticed. The attempted direct surveillance of the 15th was a crude operation and something we would expect to read about in a comic novel or a comic book; and certainly was not carried out by any one who had been trained in surveillance."

(Note: Any surveillance of LIMA/Y basehouse or personnel can be handled, should this be found necessary, by COB to LIMA/PER.)

3. Station Comment: The Station is unable to make any definitive conclusions relative to the reported surveillance incidents described above. It is not the Station's intention to minimize the seriousness of opposition surveillance attempts nevertheless, it has not been possible to arrive at any substantive conclusion concerning which police or intelligence service is interested in the actions of Station Case officers. Based only on the above information, the Station, in fact, cannot be sure that Station officers are the only targets of surveillance in PERU/INTL. It is entirely possible that other OGACID members have been under surveillance, but because of a lack of awareness of this, investigative techniques have not observed such actions. All Case Officers and operational personnel have been alerted to watch for and to report any surveillance attempts made against them. Headquarters will be advised promptly should the Station be able to derive any patterns of participation to the above or any future incidents of hostile surveillance.

B. Material Processed

In May, the LIENVOY LP provided the Station with 152 pages of daily resumes, 47 tapes from three Czech lines and 93 tapes from four Soviet lines. The Spanish transcriptions of the tapes from the Soviet lines were also provided. In addition, 60 transcriptions were provided from the Cuban lines. The Station also received 22 other pieces of material from the LP.

C. Exploitation of Material

An example of the LIENVOY coverage was the long distance call from Havana indicating that a *high-level* functionary of the Cuban Government

ACTION REQUIRED REFERENCES

ACTION REQUIRED: Per paragraph 3

REFERENCE : HEMA-18752, 23 March 1962 (HYBAT)

1. Referenced dispatch listed the target lines for LIKENVY for December 1961 and January 1962. Your attention is drawn to the fact that the targets listed coincide exactly with the list of IWS tape furnished in HEMA-18246 dated 1 December 1961.

2. The February 1962 LIKENVY target listing also furnished in referenced dispatch appears to be correctly labeled LIKENVY.

3. Your comments on paragraph one above are requested.

MEMORANDUM FOR: Chief, Task Force Washington

ATTENTION : John Caswell

SUBJECT : Feasibility of Effecting Release of Manuel URRUTIA,
Ex-President of Cuba, Political Exile in Mexican
Embassy, Havana

1. The Mexico City Station has the capability of approaching LITENSOR (Ident A) and requesting him to attempt to arrange for a safe conduct pass for Subject. The approach to LITENSOR can be made through three different channels; LITENSOR/2, (Ident B), LITENSOR (Ident C), and LIEAGO (Ident D). Also, a direct approach by the COS to LITENSOR could probably be arranged if so desired by Headquarters for operational security reasons.

2. No assessment on the success of an approach of this type can be made because of the Mexican interest and position re Cuba.

3. If a decision is made to attempt to obtain a safe conduct pass for Subject, it is recommended that the COS Mexico City be informed in detail of Headquarters minimum and maximum goals and that he be requested to recommend the best channel to LITENSOR.

PRIORITY**I. Attached are copies of:**

a. "Broviario de Cultura Económica" (Segunda Edición-1960) written by (Marxist) Francisco FARRERA Valdés and, as can be seen on the inner first page, approved by the Textbook Committee of the Ministry of Education as the textbook in beginning economics courses in Mexican public schools.

Note: I. This book is pure Marxism. Pages 19, 41, 44 and many others distinctly praise Marxism and condemn capitalism and capitalist countries (particularly England, the U.S.A. and France).

II. Also attached is a copy of the work mentioned for this book.

III. This book and its Marxist contents has been called to the attention of LIEUTENANT LIERGO and others by CGS. To date, however, the approval of this content has not been withdrawn.

b. "Cuba. Despertar de América", written by (Marxist) Ramón RAMIREZ Gómez, who is one of the most important professors of economics in the School of Economics at the Universidad Nacional Autónoma de México (U.N.A.M.). This book, which is pure Marxist, praises Castro's Cuba, Communism, China and Marxism and condemns the U.S.A. This book was published officially by the National University of Mexico in 1961 and is used in the School of Economics there.

Note: Ramón RAMIREZ Gómez was one of the professors primarily responsible for expelling Luis Felipe COELLO Machado and Guillermo VELIZ Pelayo from the U.N.A.M. because they took part in anti-Castro, anti-Communist activities on 26 July 1961 (See MMMA-17933 and HMMA-18497).

2. Another textbook which is Marxist and which has been the subject of considerable publicity recently is "La Unidad de Trabajo y Estudio" by Clara O. CARDONEL, Professor at the Escuela Normal de Matemáticas, Cuba, 1960. This book was one of the issues that provoked a mass demonstration against the leftist policies of Governor Eduardo LIVAS Villaseñal of Nuevo Leon. (See MMCI-08412 and MMCI-08413.)

3. It will be recalled that on the evening of 31 January 1962 Thomas E. BREWER requested copies of the two (2) textbooks listed in paragraph I above, from CGS. He wished to consider using them in presentations to (1) CHAPSSU and (2) possibly to certain Senators and Congressmen.

1. Attached is a copy of a long conversation obtained by LITERODE on 18 January 1962.
2. The conversation is amongst: Jose Antonio PORTUONDO Valdor, Cuban Ambassador; Berta PORTUONDO (his wife); Xiomara SANCHEZ Robert (PORTUONDO's secretary) and a Mexican visitor. The visitor pretends to be a student from the Instituto Politecnico Nacional (IPN). The two women--and later PORTUONDO--accuse the Mexican of being a provocateur; and PORTUONDO lectures him on the Cuban Embassy's policy of non-intervention in Mexico.
3. On 23 January 1962 LITALUS/2 reported the visit by one MOTA (now--five months), agent of the Dirección Federal de Seguridad (DFS). LITALUS/2 showed the case officer a copy of MOTA's report on his visit to the Cuban Embassy and his conversation there. (The DFS, according to LITALUS/2, do not believe the report!)
4. A copy of the portion of the tape with this (MOTA) conversation was played for LITEMPO/2. He found it extremely interesting and said the Cuban Ambassador "protested his ignorance too much".
5. If Headquarters approves (as requested in reference) a copy of the attached will be given to LITEMPC/2 for him to "make public" as material collected by him. This and the additional materials specified in reference would, it is hoped, have sufficient impact to cause the Mexicans to break relations with Cuba.

6. The summary of the case of Francisco DELGADO Garcia is authentic and is a case of LITEMPO/2's organization handled.

7. Finally, LITEMPO/2 was orally reminded of the material furnished (personally) to LITEMPO/2 by Manuel VILLAFANA Martinez, Air Attaché, Cuban Embassy, who defected. A tape of the interview between LITEMPO/2 and VILLAFANA Martinez was made—and the Station still has a copy.

8. The Ambassador was allowed to believe that all of the above material is authentic.

9. The Ambassador hopes that this material which now has been shown to LITENSOR by LITEMPO/2 will be helpful in convincing Mexico that they should break relations with Cuba. The Station feels that this cooperation in the effort to impress LITENSOR and LITEMPO/2 with those (which were said to be "some examples") illustrations of Cuban interference in the internal affairs of Mexico was good political action for ODYOKO and with the Chief, ODACID.

If this Headquarters and the Department of State approve,
the Chief of Station plans to give to Minister of Gobernacion
Gustavo DIAZ Ordaz:

- a. A tape recording of a long conversation of one NOTA, a DPS agent, with Cuban Ambassador PORTUONDO, his secretary and Mrs. PORTUONDO. NOTA entered the Cuban Embassy on 18 January 1962, pretending to be a Politechinc student. The Cubans called NOTA a provocateur and loudly protested their innocence, saying they had not intervened in Mexican internal affairs. (The Chief of Station has played this tape for DIAZ Ordaz, who remarked, "They protest too much.")
- b. A tape recording of a conversation between a group of Colombian revolutionaries and Ambassador PORTUONDO, in which the former said an armed insurrection had already begun in practice in Colombia. They said the Colombian revolution was a part of the Cuban and Mexican revolutions and asked for solidarity and collaboration of all revolutionaries. PORTUONDO said he would send their report to Habana so that Cuba would have news of the situation and know who they are.
- c. A faked copy of a page from the personal file of Angel BOAN of Prensa Latina, who is now in Cuba.

The following message has been received from Mexico City:
For King and Sayre from Ambassador Manns

1. As you know, some weeks ago we became convinced that only chance of getting Mexico to break relations with Cuba would be on basis Cuban intervention Mexican internal affairs. This of course was on assumption two thirds Rio treaty vote could not be obtained at Punta Del Este.

2. With this objective in mind Dept and CAS authorized me to turn over materials described in IN 12519 to appropriate Mexican official. I chose Gustavo DIAZ Ordaz.

3. DIAZ Ordaz has informed CAS that he discussed this evidence with Lopez Mateos who expressed surprise and interest. We discount Lopez Mateos statements because as you know he has much better evidence of Cuban Embassy intervention which he keeps strictly to himself and has never told Cabinet about. The evidence we turned over to DIAZ Ordaz has psychological importance because President is now aware that DIAZ Ordaz also knows part of the story. He can never be sure that DIAZ Ordaz will not use this to support his own anti-communist convictions if a showdown between the Commies and anti-Commies should occur in Mexico.

4. DIAZ Ordaz has asked me through CAS whether I would have any objection if the information we furnished him were made public should an appropriate occasion arise in the future. He said there would be no mention of the U.S. Govt and that Gobernacion would present the evidence as collected by it.

5. I recommend that CAS and I get authorize me to inform DIAZ Ordaz that we have no objection on the basis outlined by him. Reason for my recommendation is that on the one hand we lose little by blowing the microphone operation since battery is scheduled to expire soon in any case. We believe we are in a position where we can safely deny that we had anything to do with placing microphone. In this connection DIAZ Ordaz obviously believes our story that we picked up signal by routine dialing of different frequencies and that microphone was presumably placed by Soviets to check on their satellites. On other hand affirmative answer to DIAZ Ordaz will also implicitly suggest the possibility that the time may come when we ourselves might wish to make this information

public. I can think of no better incentive to Lopes Mateos to break relations with Cuba than possibility Mexican public might eventually become aware of extent to which Mexico has tolerated Cuban intervention in spite of its vaunted devotion to the doctrine of non-intervention.

6. Finally I wish to say that I realize all of these maneuvers involve some risk to U.S. but I believe resurgence of Communist influence in last two months requires unusual counteraction on our part.

7. DIAZ Ordaz has returned material to CAS for safe keeping and it is now in our possession. He claims he made no copies and we believe this probably true.

FOR GALBOND AND SAYRE FROM AMBASSADOR MANN

1. AS YOU KNOW, SOME WEEKS AGO WE BECAME CONVINCED THAT ONLY CHANCE OF GETTING MEXICO TO BREAK RELATIONS WITH CUBA WOULD BE ON BASIS CUBAN INTERVENTION MEXICAN INTERNAL AFFAIRS. THIS OF COURSE WAS ON ASSUMPTION TWO THIRDS RIO TREATY VOTE COULD NOT BE OBTAINED AT PUNTA DEL ESTE.

2. WITH THIS OBJECTIVE IN MIND DEPT AND CAS AUTHORIZED ME TO TURN OVER MATERIALS DESCRIBED IN MEXI 9855 TO APPROPRIATE MEXICAN OFFICIAL. I CHOSE GUSTAVO DIAZ ORDAZ.

3. DIAZ ORDAZ HAS INFORMED CAS THAT HE DISCUSSED THIS EVIDENCE WITH LOPEZ MATEOS WHO EXPRESSED SURPRISE AND INTEREST. WE DISCOUNT LOPEZ MATEOS STATEMENTS BECAUSE AS YOU KNOW HE HAS MUCH BETTER EVIDENCE OF CUBAN EMBASSY INTERVENTION WHICH HE KEEPS STRICTLY TO HIMSELF AND HAS NEVER TOLD CABINET ABOUT. THE EVIDENCE WE TURNED OVER TO DIAZ ORDAZ HAS PSYCHOLOGICAL IMPORTANCE BECAUSE PRESIDENT IS NOW AWARE THAT DIAZ ORDAZ ALSO KNOWS PART OF THE STORY. HE CAN NEVER BE SURE THAT DIAZ ORDAZ WILL NOT USE

RIS TO SUPPORT HIS OWN ANTI-COMMUNIST CONVICTIONS IF A SHOWDOWN BETWEEN THE COMMIES AND ANTI-COMMIES SHOULD OCCUR IN MEXICO.

4. DIAZ ORDAZ HAS ASKED ME THROUGH CAS WHETHER I WOULD HAVE ANY OBJECTION IF THE INFORMATION WE FURNISHED HIM WERE MADE PUBLIC SHOULD AN APPROPRIATE OCCASION ARISE IN THE FUTURE. HE SAID THERE WOULD BE NO MENTION OF THE U.S. GOVT AND THAT GOBERNACION WOULD PRESENT THE EVIDENCE AS COLLECTED BY IT.

5. I RECOMMEND THAT CAS AND DEPT AUTHORIZE ME TO INFORM DIAZ ORDAZ THAT WE HAVE NO OBJECTION ON THE BASIS OUTLINED BY HIM. REASON FOR MY RECOMMENDATION IS THAT ON THE ONE HAND WE LOSE LITTLE BY BLOWING THE MICROPHONE OPERATION SINCE BATTERY IS SCHEDULED TO EXPIRE SOON IN ANY CASE. WE BELIEVE WE ARE IN A POSITION WHERE WE CAN SAFELY DENY THAT WE HAD ANYTHING TO DO WITH PLACING MICROPHONE. IN THIS CONNECTION DIAZ ORDAZ OBVIOUSLY BELIEVES OUR STORY THAT WE PICKED UP SIGNAL BY ROUTINE DIALING OF DIFFERENT FREQUENCIES AND THAT MICROPHONE WAS PRESUMABLY PLACED BY SOVIETS TO CHECK ON THEIR SATELLITES. ON OTHER HAND AFFIRMATIVE ANSWER TO DIAZ ORDAZ WILL ALSO IMPLICITLY SUGGEST THE POSSIBILITY THAT THE TIME MAY COME WHEN WE OURSELVES MIGHT WISH TO MAKE THIS INFORMATION PUBLIC. I CAN THINK OF NO BETTER INCENTIVE TO LOPEZ MATEOS TO BREAK RELATIONS WITH CUBA THAN POSSIBILITY MEXICAN PUBLIC MIGHT EVENTUALLY BECOME AWARE OF EXTENT TO WHICH MEXICO HAS TOLERATED CUBAN INTERVENTION IN SPITE OF ITS VAUNTED DEVOTION TO THE DOCTRINE OF NON-INTERVENTION.

6. FINALLY I WISH TO SAY THAT I REALIZE ALL OF THESE MANEUVERS INVOLVE SOME RISK TO U.S. BUT I BELIEVE RESURGENCE OF COMMUNIST INFLUENCE IN LAST TWO MONTHS REQUIRES UNUSUAL COUNTERACTION ON

WE BELIEVE THIS PROBABLY TRUE.

C/S Comment: * Ambassador Mann informed LITEMPO/2 (2) that State Department had certain information on Cuban intervention in Mexican internal affairs.

1. AMBASSADOR SHOULD HAVE SAID "TRANSCRIPTS" INSTEAD "TAPES" IN BEGINNING SENTENCE PARA TWO A OF REF A. TRANSCRIPT OF PORTUONDO CONVERSATION WITH COLOMBIANS IS ACCURATE RESUME OF AUTHENTIC TAPE RECENTLY RETURNED TO STATION BY HQS. THIS TAPE WILL BE PASSED
2. LITEMPO-2 AFTERNOON 19 JAN. SECOND TRANSCRIPT REFERRED TO BY AMBASSADOR. SAME SUB PARAGRAPH WAS FABRICATED BY STATION AND BASED ON STATION KNOWLEDGE OF ACTUAL VISIT TO PORTUONDO BY POLITIECNIC STUDENT. NO TAPE EXISTANT NOR HAS EXISTED OF THIS TRANSCRIPT. CONTENT THIS TRANSCRIPT NOT PERTINENT EXCEPT FOR INCRIMINATING STATEMENT QUOTED BY AMBASSADOR CONCERNING PAYMENT TO STUDENTS.

2. THE "GENUINE" DOCUMENT MENTIONED BY AMBASSADOR IN PARA TWO B OF REF A IS STATION FABRICATION. DURING MONTH OF AUGUST 1961 LIFIG PROVIDED STATION WITH PRENSA LATINA PERSONAL FILE OF ANGEL BOAN, THEN MEXI DIRECTOR GENERAL. MEMORANDUM FOR: Deputy Chief, WH Division

SUBJECT : Operations Proposed by Station Mexico City to Influence Mexico to Break Relations with Cuba.

1. In addition to the proposal advanced by Ambassador Mann to pass certain telephone tap transcripts to high Mexican officials, Station Mexico City has just forwarded the following suggested operations designed to influence the Mexican Government to break relations with Cuba prior to the OAS Conference:

- A. To prepare the Mexican "version" of the paper on Cuban Subversive Activities for the Ambassador to pass to Foreign Minister TELLO.
 - B. To fabricate on tape a phoney conversation by the Cuban Ambassador and insert it into the joint telephone tapping operation we operate for the President.
 - C. To attempt to persuade a longtime Mexican employee of the Cuban Embassy to defect and make a public statement condemning Cubans for interference in Mexican affairs.
 - D. Should it not be possible to have the Subject above make a public defection, attempt through him to obtain incriminating documents or propaganda from the Cuban Embassy that are suitable for sensational exploitation. The Subject has claimed that the Cubans are running "indoctrination" classes for Mexican youth within the Embassy building.
 - E. If security considerations permit, attempt to arrange a "crash" of the automobile of the Cuban diplomat Angelio MOREJON. The "crash" would involve a special under-car device containing weapons and propaganda examples to "prove" Cuban intervention in local labor problems.
2. In view of the highly sensitive nature of the operations proposed above and their timing (prior to 22 January) as related to the forthcoming OAS conference and the announced visit of President Kennedy to Mexico, it

is suggested that these operations be discussed with the Department of State in detail. This may be an inopportune time for such activities, since the Mexican Government is likely to scrutinize with special care all events, whether bonfide or contrived, in the intervening period before 22 January.
