IMPLEMENT ITS PREVIOUS PLAN TO MONITOR THROUGH A SENSITIVE TECHNICAL OPERATION THE ACTIVITIES OF THE COLOMBIAN DELEGATION TO THE BORDER NEGOTIATIONS SCHEDULED TO BEGIN IN ROME, ITALY, ON 19 MARCH 1973. THE VENEZUELAN 14-MAN GROUP FROM THE DIRECTORATE OF THE SERVICE OF INTELLIGENCE AND PREVENTION (DISIP), WHICH WILL ACCOMPANY THE VENEZUELAN DELEGATION TO THE TALKS, WILL LIMIT ITS ACTIVITIES TO THE PHYSICAL AND ELECTRONIC SECURITY OF THE VENEZUELAN CONTINGENT. SHOULD THE OPPORTUNITY ARISE TO USE SECURELY A TECHNICAL OPERATION TO MONITOR THE COLOMBIAN DELEGATION, ANOTHER DISIP TEAM OF FROM FOUR TO SEVEN VENEZUELANS WILL BE SENT TO HANDLE THIS.

(SOURCE COMMENT: BECAUSE OF THE FACT THAT A VENEZUELAN FOREIGN MINISTRY COLDE OFFICER PASSED INFORMATION TO THE COLOMBIANS BASED ON THE VENEZUELAN TECHNICAL OPERATION TARGETTED AGAINST THE COLOMBIAN DELEGATION AT THE LAST ROUND OF TALKS, THE VENEZUELANS FEAR THAT THE COLOMBIANS WILL BE EXPECTING A SIMILAR OPERATION AND MAY TRY TO RECIPROcate BY MONITORING THE VENEZUELAN DELEGATION. 18. WKSCARLET-3:

During this reporting period WKSCARLET-3 produced eleven disseminations and contributed to four others. As a chief of one of the operations sections of his service, it appeared that he would continue to have excellent access. However, in December WKSCARLET-1 reorganized his service and ostensibly reduced our agent's area of responsibility and access. WKSCARLET-3 was slightly depressed at this occurrence as he believed, and rightly so, that he had not merited this reduction. After the holidays, however, it became apparent that WKSCARLET-1 would continue to use WKSCARLET-3 in special operations and that the reduction in responsibility was solely to take WKSCARLET-3 out of the limelight. Thus, our agent is still able to report on the sensitive operations of his service. As a result of this and his past performance, WKSCARLET-3 was given a salary increase beginning January 1973.

*Horn 19306 4 Mar 73 WKSCARLET Project 1 Feb - 3 March*

7. WKSCARLET-3

Although WKSCARLET-3 continued his fine production during this time period, it was THABYSS activity which produced the real interest. Through other cables and dispatches we have reported his involvement in this irregular activity, which if proved true will end in his termination as a BKHERALD asset. At the present time WKSCARLET-3 is the security team leader for the Venezuelan delegation to the Gulf of Maracaibo talks presently being held in Rome. It is planned that soon after he returns, and if we have sufficient hard facts, we will confront our agent in an attempt to clarify his THABYSS connection.

REPORT NO. CSCl-316/00339-73

DATE DISTR. 31 January 1973

COUNTRY Venezuela

DOI 8 December 1972

SUBJECT Reorganization of the Directorate  
of the Service of Intelligence and  
PreventionACO Venezuela, Caracas (15 December FIELD NO. IVC-6525  
1972)SOURCE An experienced police investigator whose position gives him  
access to information on matters affecting the internal  
security of Venezuela. He reports without the knowledge of  
his superiors. His information has been frequently con-  
firmed by independent sources. He provided a copy of the  
reorganization document.1. On 8 December 1972 the Directorate of the Service  
of Intelligence and Prevention (DISIP) was reorganized by its  
Director, Dr. Remberto Uzcategui Brizual.(Source Comment: Uzcategui believes  
DISIP will be in line for criticism during the election year  
of 1973 and he wants to remove from positions of responsibility  
any of his controversial section heads.) The gist of the  
document issued by Uzcategui reorganizing DISIP follows.2. The Director of DISIP sets the general policy based  
on instructions from the Ministry of the Interior and has  
ultimate control of the Services. The Deputy Director assists  
him in carrying out these responsibilities and substitutes  
for the Director during his absence. As its supervisory and  
fiscal units, DISIP has an Inspector General of Services who  
has the responsibility of disciplining personnel and investi-  
gating employees, and an internal comptroller who verifies  
the administration of the Services.

3. The following are the DISIP executive positions:

a. Secretary General of Services, which has been  
assigned to Dr. Osvaldo Dominguez.

STATUS OF PROJECT AGENTS:					
<p>13. This period showed that while WKSCARLET-3 does have a highly responsible position within his organization, he still is being ordered to do special assignments by the chief of the service. These assignments usually involve out-of-town travel and/or long and unusual working hours. This precludes regular scheduled meetings; however, the agent is contacted on the average of once a week. WKSCARLET-3, along with his normal routine duties, was involved in a number of varied activities during the reporting period which he duly reported to the Station. He continues to investigate all possible leads in the kidnapping case of Carlos Dominguez. In August he led a small team to Cucuta, Colombia where they uncovered and destroyed a small printing shop which was engaged in the fabrication of false Venezuelan identity cards. He continues the investigation of the activities of Sergio Piedra Ruiz, the Prensa Latina chief in Caracas. The problem of agent/case officer communications has been somewhat alleviated. The agent now contacts the case officer at the latter's home during the evening hours. This doesn't obviate the need for an RS-708 system, but until the details for a concealment device that will be appropriate for WKSCARLET-3's rather spartan office are worked out, phone contact is necessary. During the reporting period WKSCARLET-3 produced three disseminations and contributed to one other.</p>

<p>11. In mid-April CIFENCE-4 was placed in charge of yet another of the CIRASH divisions, with added responsibility and importance. This change has allowed him more time in Caracas, and reflects a continually improving position vis-a-vis CIFENCE-1, the CIRASH Director. This coupled with what now appears the likelihood that CIFENCE-1 will retain this present position until the government changes in early 1974, makes the longevity of CIFENCE-4 with CIRASH somewhat more certain. As part of his new responsibilities, CIFENCE-4 has initiated an extensive investigation of Prensa Latina and its Caracas Director, Sergio Pineda Ruiz. This operation was interrupted in early June by the kidnapping of Venezuelan industrialist Carlos Dominguez, with CIFENCE-4 being placed in charge of the CIRASH investigation of the as yet unresolved case. As of this writing, CIFENCE-4 has been devoting all of his time to this kidnapping case, to the detriment of other operations. Because of the unpredictable work schedule of CIFENCE-4 and the security precautions observed by the Station in contacting him, operational communication has been less efficient than desirable during the reporting period, while security has been maintained. The arrangements have been reviewed and improved, but the Station is looking for a more satisfactory system. The Station tentatively plans to request an RS-708 system for this agent in the near future. CIFENCE-4 contributed to two reports during the April through June quarter.</p>

SUBJ	Ricardo MORALES Navarrete	
ACTN	REQUISITION	

1. On approximately 5 March 1972, a Station asset, CIFENCE-4, while acting in his cover capacity had occasion to detain and question one Ricardo MORALES Navarrete, a Cuban resident of Miami.

2. Morales N. told CIFENCE-4 that he, Morales, is employed by LNERGO from whom he receives a salary of US\$700 per month. Morales said that he was en route to Colombia on a drug case at the time. During the conversation Morales admitted to CIFENCE-4 having been responsible for a killing in Florida.

3. CIFENCE-4 reported to the Station the above, as well as stating that Morales has an extremely poor reputation in the Cuban community, where he is prone to tell nearly anyone willing to listen of his affiliation with LNERGO, with the implication that his employer sanctions his activities.

4. Morales also told CIFENCE-4 that a Cuban (true name of CIGOAL-5) who works with SIFA in Caracas is an agent of BKTRUST.

5. Attached is a copy of the reentry permit of Morales, as well as a clipping from the Miami press relating to the killing which Morales allegedly confessed to having committed.

6. The above is for the information of Station WH/Miami and further action as deemed appropriate. No coordination with LNERGO in Caracas has been effected due to security considerations involving CIFENCE-4.

8 Cuarto 1309, Hospital Jackson Memorial, 7:10 P.M.  
Miércoles Diciembre 4 de 1968.

"Yo, JULIO ATON CONSTANZO PALAU, del 732 S.W. Cuarta calle, Miami, Florida, casado con María Constanzo, la cual está aquí presente, declaro lo siguiente: Nací en Palma Soriano, Oriente, en Cuba, el 22 de Mayo de 1936. Yo tengo 32 años de edad. Me casé el 10 de Marzo de 1953 en Miami, Florida.

Yo no soy un ciudadano de Estados Unidos. Yo soy un residente, y tengo una hija, Elizabeth, la cual cumple cinco años de edad el 24 de diciembre, la cual nació aquí, en este Hospital, Jackson Memorial.

Mi propósito de hacer estas declaraciones se debe al hecho que la policía ha permitido que pasea varios

efis, y la gente que intentó quitarme la vida está fuera en la calle, libres.

El 22 de noviembre, alrededor de las 8:30 de la noche, a unas tres cuadras de mi casa, yo estaba caminando y me bajé de la acera en la Tavenda y la Segunda calle, en la sección del S.W., cuando oí a alguien llamar "Aón", y miré para ver quién era, y entonces yo sentí que ellos me disparaban, y yo vi las armas con silenciadores.

Yo vi a Ricardo Morales Navarrete, y él estaba en un Chevrole Impala 1965, de dos puertas, amarillo con dos luces de cola. Estaba situado en el medio de la calle.

Este hombre, Ricardo Morales Navarrete estaba en el asiento de atrás, en la lado izquierdo. El tenía un fusil M-3, con un silenciador, el cual dispara balas calibre 45.

Otro hombre estaba manejando, y yo lo conozco de vista, pero no sé su nombre verdadero. Lo llaman con el apodo de "El Gallego". Este hombre, El Gallego, tenía una pistola que parecía una Beretta, con un silenciador adaptado.

Ambos me dispararon. Yo recibí 15 heridas de bala y 21 perforaciones.

Un tercero hombre estaba en el carro, llamado Francisco Rodríguez al que apodian "El Mexicano", el cual no disparó.

Yo identifico a Ricardo Morales Navarrete como al mismo hombre que testificó para el Gobierno en el juicio de Orlando Bosch.

Dos días antes yo lo vi a él con esta otra persona, El Gallego, observándome en frente de mi casa. Ellos estaban en otro carro, un Polara.

Yo conozco a este Morales Navarrete de La Habana, él era Jefe Asistente de la Sección del G-2 en el Aeropuerto de Rancho Boyeros, Habana, Cuba.

Yo no he hablado con él, pero otro hombre, Eddy Fernández Pla, hace casi dos meses, vino a mi casa a eso de la una de la madrugada para darme la mensaje de Ricardo Morales Navarrete y del Mexicano Francisco Rodríguez Tamayo los cuales no querían ser mis enemigos, que el enemigo era Batista, y que debíamos ser amigos porque las cosas iban a cambiar.

Yo le dije que no quería tener ninguna amistad con gente que trabajaba para Fidel Castro.

La noche que Eddy Fernández Pla vino a mi casa, él estaba con otro hombre, Rogelio Fernández, el cual es un vendedor de la Firestone.

Yo tengo una bala alojada cerca de mi corazón y tiene que ser extraída con un aparato especial, según me dijo el médico.

En estos tres últimos días no me he sentido bien y como tengo todos estos tiros en mi cuerpo sé que estoy en una mala condición y me siento como que voy a morir, y si muero, no quiero morir sin que este gran país castigue a estos asesinos, los cuales son nefastos para toda la sociedad.

Hago estas declaraciones completamente consciente de sus contenidos, sin coacción y de mi propia y libre voluntad.

He tenido atención médica para aliviar el dolor, y no me siento bajo la influencia de ninguna droga, pero me siento muy normal y hago estas declaraciones por las razones antes expuestas".

Attached is a study in Spanish language prepared by the Venezuelan Directorate of the Service of Intelligence and Prevention (DISIP) in the Ministry of Interior on a diamond field in the Venezuelan Guyana region which may be of interest to the Venezuelan and Guyana Desks. It was provided by CIFENCE-4, a unilateral security source, on 26 April 1972. According to CIFENCE-4, President Rafael Caldera was very interested in the study and excerpted large portions verbatim for one of his weekly press conferences.

REPUBLICA DE VENEZUELA  
MINISTERIO DE RELACIONES INTERIORES  
DIRECCION DE LOS SERVICIOS DE INTELIGENCIA Y PREVENCION

Caracas, 27 de MARZO de 1972.-

Informe que presentan los funcionarios LUIS POSADA CARRILES, JULIO CESAR LANZA CARVAJAL y E FREN CASTILLO, en relación a las averiguaciones practicadas en el Campo Diamantífero "La Salvación", situado en el sur-oeste de la Guayana Venezolana.

INFORME

1. Ubicación y descripción geográfica de la región. Su acceso.-
2. Condiciones de vida y de trabajo de la población minera.-
3. Actuación de las autoridades.-

1. Ubicación y descripción geográfica de la región. Su acceso:

1. 1. El lugar donde se encuentra establecido el Campo minero "La Salvación" está ubicado al Sur-Oeste del Estado Bolívar, en pleno corazón de la selva, cercano a las riberas del Río Guaniaco, unas dos horas aproximadamente por vía aérea desde Ciudad Bolívar. El mencionado poblado está enclavado en una superficie plana cuyos contornos están sembrados de innumerables elevaciones de tierras que forman parte del macizo Guayanés.
1. 2. La única vía de acceso es aérea, ya que por la naturaleza de la región y su gran distancia de los centros poblados, es prácticamente imposible que se haga por otros medios. A tal fin se

CIFEN CIE - 4

han construido pequeñas e improvisadas aero ---  
puertos en los cercanías de la región del Guan-  
ímo y más pequeños aún en cada una de las mi-  
nas que van apareciendo y dando ~~ce~~ agrupan tem-  
poralmente gran número de personas.-

Puntualizando lo antes dicho existe un aeropuer-  
to que sirve como Base de Operaciones en la región, iden-  
tificado como Aeropuerto de "La Contella", con una longi-  
tud de ochocientos (800) metros de pista de tierra, sien-  
do este el de mayor tamaño y desde donde se hacen los ---  
tránsbordos en avionetas más pequeñas que salen a los pro-  
pios campos mineros, situados en un área no mayor de quin-  
ce (15) minutos de vuelo.

En el caso de "La Salvación", este campamento-  
minero se encuentra exactamente a unos siete minutos de  
vuelo saliendo del Aeropuerto "La Contella". La pista de  
aterrizaje es igualmente de tierra con apenas trescientos  
ochenta (380) metros de longitud, lo que hace sumamente ---  
peligroso su utilización, mas aún cuando observamos que ---  
se encuentra rodeada de árboles gigantescos que alcanzan  
40 y 50 metros de altura. Por las características descri-  
tas, en esta pista han ocurrido varios accidentes obreos-  
causando muertos, heridos y varios aparatos destruidos de  
los cuales actualmente se pueden apreciar en el sitio cin-  
co totalmente inservibles; igualmente no se utilizan los  
equipos de radio entre las avionetas y los aeropuertos, ex-  
istiendo el peligro latente de un accidente por el cho-  
que de aparatos tanto en el aire como en la propia pista,  
ya que generalmente existen nubes muy bajas que apenas ---  
permiten ver la pista como un pequeño claro en medio de ---  
la selva; esta situación empeora aún más por la irrespon-  
sabilidad de las líneas aéreas y los propios pilotos, ---  
quienes buscando mayor beneficio sobrecargan los aviones-  
a veces hasta con el doble del peso permitido, sin que ex-  
ista ningún control de Comunicaciones para regular tal a  
normalidad. Un ejemplo claro lo constituye la Línea "A-  
SERCA", que en un año registró trece accidentes en la re-  
gión.-

14 00000  
2. Condición de vida y de trabajo de la población ming  
xi

2. 1. Las condiciones de vida de la población que al  
cazar aproximadamente a unas 6.000 personas -  
(pero que llegó a tener al año pasado unas --  
15.000), dejan mucho que desear en el aspecto-  
sanitario, habitacional y moral. Los aguas -  
que corren por el lugar están contaminadas por  
el esparcimiento indiscriminado de excrementos  
en las márgenes de los quebrados y pequeños -  
ríos, así como en el interior del propio pobla-  
do. Las enfermedades, como el paludismo y ami-  
biasis, se observan con bastante frecuencia -  
por falta de asistencia y control sanitario; -  
las enfermedades venéreas abundan por no exis-  
tir un riguroso control sobre el gran número -  
de prostitutas que existen en la población. La  
totalidad de las viviendas están construidas -  
con cartones, tablas y láminas de zinc, que no  
casamente protegen a sus moradores de las in-  
clemencias del tiempo, siendo más grave la si-  
tuación por la gran cantidad de niños que son  
llevados por sus padres al lugar, por demás pa-  
ligraso e inapropiado para ellos, sin que tam-  
poco exista ninguna regulación o control al -  
respecto.-

La prostitución cobra marcado incremento en es-  
tas zonas, atrayendo mujeres desde diferentes-  
lugares de la República y de países vecinos co-  
mo Colombia y Brasil, que se agrupan en impro-  
visados bares situados dentro de la población,  
provocando hechos reñidos con la moral que se  
llevan a cabo en presencia de niños y de hono-  
tas familias de menorazgo.

Prolifera en sus diferentes manifestaciones el  
juego, siendo los más comunes la bareja y los-  
dados, bingos, etc., estos últimos son transmi-  
tidos por altavoces dándole un aspecto de fe--

ris nocturnas al poblado.-

2. 2. Generalmente los mineros forman grupos de trabajo constituyendo pequeñas sociedades entre los que se repartirán la ganancia que logren obtener, pero como carecen de recursos indispensables se ven obligados a incluir como socios a personas que les prestan los implementos de trabajo o que financian su alimentación, constituyendo esta forma una especie de explotación si se toma en cuenta que generalmente exageran las cantidades consumidas por los mineros. Los compradores de diamantes aprovechan la necesidad de vender los diamantes encontrados por los mineros, para pagarlos a precios muy por debajo de su valor real y los especuladores aprovechan para elevar los precios de los alimentos, medicinas, etc., llegando en oportunidades de escasez a vender hasta en Bs - 40 un kilogramo de arroz. Actualmente dada la competencia y los constantes viajes que efectúan al lugar las diferentes líneas aéreas, entre ellas: "ASERCA", "AEROVEN", "GATIZSA", "LATINCARGA", "AEROTECNICA" y "COMERAVIA", los precios han dejado de ser tan exagerados.-

3. Actuación de las autoridades:

3. 1. La primera autoridad civil del lugar está representada por un Comisario General de nombre JOSE TOMAS GAONA ESPINOZA, pero el verdadero control sobre la población es ejercido por la Guardia Nacional y para el momento de la presente averiguación estaba constituida por un grupo de cuatro Guardias, comandados por un Cabo de apellido CARPIO; este grupo es completamente nuevo en el lugar, a raíz de la salida del Teniente LUIS PRIN y de su segundo, un Cabo de apellido PIHATE, quienes fueron sometidos a investigación por su propio Comando a causa de frecuentes denuncias de presuntas irregularidades cometidas en ejercicio de sus

funcionarios. Entrevistados algunos comerciantes y mineros del lugar, pudimos obtener información coincidente entre los mismos informantes de las actividades desagradables para ellos desarrolladas por los efectivos de la Guardia Nacional, citando atropellos cometidos por el Teniente LUIS PRIN y el Cabo PIÑATE, destacando entre ellos los siguientes:

Que cuando el Teniente LUIS PRIN VILLEGRAS era el Jefe de la Guardia Nacional en "La Salvia -- cién", existía el Bar "Bejuquero", cuya dueña aparentemente era la ciudadana PETRA GUAPE, quien era públicamente amante del Teniente -- PRIN, ya que eran vistos caminar tomados de la mano por el pueblo y el Tte. dormía juntos con ella en el local del mismo Bar, lo grave de -- los hechos, según revelan los informantes, estaba en que a las nueve de la noche el Teniente ordenaba el cierre de todos los demás bares notificandole a los mineros por intermedio de los propios Guardias que si querían seguir tomando podían continuar en el Bar "Bejuquero", donde en varias oportunidades se vió a los -- Guardias uniformados despachando cervezas a -- los clientes en el interior de ese Bar, por lo que se generalizó entre los pobladores la idea de que el Tte. PRIN tenía parte en el negocio. Igualmente informan los entrevistados que los Guardias Nacionales que comandaba el Tte. PRIN VILLEGRAS, especialmente el Cabo PIÑATE, se daban a la tarea de pedir a los mineros parte de la tierra que sacaban y donde podría haber o no diamantes; igualmente cobraban una especie de impuesto a las personas que administraban las casas de jueces. Narran las personas entrevistadas que en una oportunidad los mineros, uno de ellos menor de edad, se jugaban de manos en el pueblo, resultando golpeado el menor y --

que su amigo, quien lo golpeó, sin mala intención, no opuso ninguna resistencia y voluntariamente manifestó a la Guardia Nacional que estaba dispuesto a enviar al médico por su cuenta a su amigo y a pagar un arresto si era necesario, cosa ésta que no sucedió pues el Teniente ordenó esposarlo y propinarle cinco planazos en presencia del pueblo para así sentar un precedente de respeto, según expresó.- Se pudo conocer que el año pasado, por el mes de Noviembre, por orden de la Guardia Nacional se llevó a cabo una reunión en el Bar del Señor ZABALA, y donde asistieron además el Coronel VALDERRAMA y el Tte. Chnl BECERRA, procedentes del Destacamento acantonado en San Fernando de Apure. En esta reunión se planteó la necesidad de que colaboraran los comerciantes de la localidad para la construcción del Comando de la Guardia Nacional en esa mina; los comerciantes aceptaron hacerlo y negocio a negocio fueron visitados dando en 100 y 200 bolívares cada uno; esta colaboración no fué del grado de los comerciantes, pero por temor a represalias prefirieron colaborar no pudiendo determinar la cantidad recogida, pero se estimaba varías miles de bolívares; con la suma de dinero donada se construyó un galpón de zinc, cercado con alambres de púas que en la actualidad hace las veces de Comando de la Guardia Nacional en "La Salvación".-

Un Mayor de las Fuerzas Aéreas Venezolanas apellido SEGUIA, se ha hecho en las minas hombre importante en su condición de comerciante. Adquirió junto con otros socios la Línea aérea "ASERCA", pilotando personalmente uno de sus aviones, específicamente el identificado con las siglas: YV-C-ASI-, donde transporta personas y carga, especialmente cerveza traída des-

de Valencia y Maracay, constituyéndose así en el mayor distribuidor de cerveza en la mina; además posee la Cáica fábrica de hielo que exige en el lugar y una planta para tratamiento del agua, la que igualmente vende en la mina. Estos negocios están administrados por un hermano suyo, y que los maquinarios de la compañía que fabrica hielo y potabiliza el agua, distinguida con el nombre de SAFER, fueron trasladadas a la mina en un avión de carga de las Fuerzas Aéreas.-

Esta comisión pudo ver personalmente al Mayor SEGUIA en su función de piloto comercial cuando iba a los mineros que transportaba; igualmente la comisión le observó en traje civil, pero según informaron las personas interrogadas, este militar frecuentemente ha sido visto con su uniforme de las Fuerzas Aéreas, por lo que se puede deducir de que actualmente se encuentra activo en nuestras Fuerzas Aéreas.-

De la actuación de los Guardias Nacionales que actualmente se encuentran en "La Salvación" al mando del Cabo CARPIO, no hay acusaciones por atropellos, solamente y eso se pudo notar, toleran el juego y protegen algunos bares que permanecen abiertos hasta pasada la hora normal. Entre estos bares figura uno donde se practica la prostitución y cuya dueña, de nombre ROSA, se jacta públicamente de ser "la primera dama de La Salvación" por el hecho de ser la amante del Cabo CARPIO.-

En conversación sostenida en un pleno amistoso con el Cabo CARPIO, éste manifestó a la comisión que ellos aceptaban regalos en dinero de parte de los mineros por el poco sueldo que devengaban en un lugar como ese donde el costo de la vida es tan elevado.

Esta comisión, luego de hablar con las perso-

que han suministrado algunos de estos informaciones, pueden adelantar que los mismos estarán en condiciones de rendir declaraciones escritas si se les oxige, pero hicieron la recomendación de que en ese caso hubiese que hacerlo con suma discreción por temor a futuras represalias.-

Es todo cuanto tenemos que informar al respectivo.-

§ SITUACION EXISTENTE EN VENEZUELA

11 Generalidades

En 1970 la producción diamantífera Venezolana alcanzó 508.661 quilates, siendo esta producción la más alta en la historia de esta actividad en el país. Con relación a 1959 la producción ha triplicado según se desprende de los cuadros anexos de producción.

Esta producción ha sido lograda en su casi totalidad bajo el sistema de libre aprovechamiento, sinónimo de sub-desarrollo en los aspectos técnico, social y económico. En el aspecto técnico el sub-desarrollo se manifiesta en los sistemas rudimentarios de explotación que no permiten el cabal aprovechamiento del yacimiento.

En el aspecto social son de todos conocidas las condiciones infráhumanas en que se desenvuelve la vida del minero, con la falta de servicios elementales, vías de comunicación, falta de seguridad personal imposibilidad de lograr una superación personal a través de una comunidad y familia estable.

En el aspecto económico los circuitos de mercados existentes hacen que el minero se encuentre a merced de los compradores organizados a quienes venden su producción en las condiciones que le son fijadas.

Por otra parte hay que señalar que el libre aprovechamiento solo puede ser utilizado donde concurren ciertas condiciones físicas como alta concentración del diamante y agua suficiente para las técnicas primitivas de lavado.

CIFENICE- 4

Con el nivel de producción actual y la riqueza potencial existente se hace necesario efectuar modificaciones en la forma de aprovechamiento, introduciendo técnicas industriales de trabajo.

Igualmente es de señalar que la ley y reglamento actuales de Minas datan del año 1944, cuando la producción diamantífera no alcanzaba ni siquiera el 10% de los niveles actuales. Su modificación es imperativa a efectos de introducir nuevas regulaciones consonas con las técnicas existentes inclusive en países menos desarrollados que Venezuela.

No se pretende recomendar la eliminación de la explotación del diamante bajo el sistema de libre aprovechamiento por las implicaciones socio-políticas que esta medida tendría, pero sí complementarla con la utilización de métodos industriales de aprovechamiento emarcada dentro de una legislación actualizada.

El Ministerio de Minas conoce los pormenores de la explotación bajo el libre aprovechamiento desde hace tiempo, recalcada por los Ings. Francisco Izquierdo y Oleg Andreiev, expertos del MMH, en varias oportunidades.

La actividad diamantífera en Venezuela reviste enorme importancia según puede apreciarse en las cifras siguientes, (sobre datos de 1970):

- Representa el 1,5% de la producción mundial, estimada oficialmente en 46 millones de quilates.
- Utiliza una fuerza de trabajo entre 10.000 y 15.000 mineros. De la cifra anterior es difícil determinar el porcentaje de venezolanos y de Extranjeros indocumentados que trabajan en esta actividad.
- Aporta a la Nación ingresos fiscalizados de 30.millones de bolívares de los cuales el Gobierno percibe en calidad de impuesto de explotación un 3%.

\* Si informe Mancl-Fairbank estima un valor neto para la producción en ?? 20.000.000 y un total de 600.000 q.p.m. 1977

Por información bancaria obtenida extraoficialmente, hemos podido saber que procedentes del exterior fué girada a Ciudad Bolívar una suma cercana a los 70 millones de bolívares destinada a compra de diamantes durante 1970.✓

- Adoptando una cifra conservadora de 50 millones de bolívares como valor de la producción de diamantes, esto representaría un 10% del aporte que hace el Producto Territorial Bruto al Sector Minero.
- La explotación del diamante determina una serie de inversiones en actividades conexas, altamente remuneradoras por lo general, como por ejemplo las líneas de aviación locales para transporte de mineros como Aerotécnica, Comeravia, Gatic G.A., Tanca, etc.
- Fuente de ingresos para las Municipalidades. El Comercio en el Guaniamo cancela \$ 15.000 mensuales a la Municipalidad del Distrito Cedeno del Estado Bolívar ( sin prestación de servicio alguno hasta la fecha.).

## 12.- Especificaciones del Diamante venezolano

### • Origen

El diamante venezolano proviene de Guayana ( Provincia de Roraima y Cuchivero).

Es un diamante de aluvión ó sea que se encuentra en el cauce de los ríos, ó forma en terrazas aluviales depósitos ubicados a poca profundidad: 3 a 15 metros de acuerdo a la topografía.

En algunas regiones del mundo, los diamantes se encuentran en "chimeneas" ó "pipes"; únicas fuentes primarias de diamantes conocidas - ejemplo: Kimberley (Afríca del Sur) - en otras en depósitos aluviales como en Venezuela ó en las playas del Sur Oeste de África; ó en una combinación de ambos - ejemplo : Yektutia, Rusia.

No todas las "chimeneas" son productivas y 75% de la producción mundial proviene de aluvión.

La riqueza de los depósitos depende:

- del tenor en diamantes del material extiuido
- de la proporción entre los tipos, talla-industrial-hort
- de las características de las piedras (morfológicas y de color)

### • Tenor

En Venezuela la cantidad de quilates por tonelada métrica es satisfactoria; para el Guaniamo se puede evaluar en 0,4 - 0,5 quilates por tonelada métrica - cantidad que justifica la permanencia en el sitio del Minero de Libre Aprovechamiento. ( 1 quilate = 0,24 gramos)

Los valores promedios de los tenores de los yacimientos del grupo De Beers en Afríca del Sur son de 0,2 a 0,3 - según se desprende del Informe Anual 1969 de De Beers Consolidated Mines LTD.

• Proporción Talla - Industrial - Bort

La líneas divisoria entre talla e industrial es a veces arbitraria y no absoluta. Generalmente el diamante propio para la talla se caracteriza así:

- está bien conformado
- es blanco o ligeramente coloreado
- pesa más de 1/20 quilates (10 mg.)

Son comunes en nuestros yacimientos unos diamantes triangulares (equiláteros de 2 a 3 mm de lado) llamados "panelas" clasificados como industriales pero que pueden aprovecharse para talla.

El bort, oscuro, sirve para hacer polvo de diamante.

De acuerdo a las estadísticas suministradas por el Ministerio; de Minas e Hidrocarburos tenemos que la producción venezolana se distribuye en:

	1969	1970	(Guaniamo)
Talla	61%	25%	
Industrial	30%	35%	
Bort	9%	40%	

Comparado con resultados estadísticos - muy escasos por cierto de otras partes tenemos la siguiente comparación porcentual del diamante de talla con respecto a la producción total

Proporción del tipo Talla

Venezuela	25% (aluvión)
Sierra Leona	60% (aluvión)
Wesselton-Kimberley	30% (pipe)
Mir-Rusia	21% (pipe)
Udachnaya-Rusia	12% (pipe)

(Cifras de MWH; Cotty y Wilks, Inglesas; Gnevushov, Bartchinsky, Zinkov y Sobolev, Rusos).

• Forma

Característica morfológica que define al diamante de talla como un:

- octaedro
- rombo dodecaedro
- cubo.
- formas intermedias entre las 3 anteriores

La forma cúbica es la más rara; generalmente en Venezuela hallamos octaedros; muy semejantes a los de Sierra Leone y que aparecen en la hoja. - DIAMANTE DE TALLA - DIFERENCIAS MORFOLÓGICAS -

Siendo de origen aluvionario se puede apreciar que presentan aristas redondeadas y no nítidas, significativo de un posible arrastre hasta su lugar de extracción.

Los octaedros de "chimeneas" tienen aristas nítidas y perfectas (foto). En la operación de talla, el octaedro es el mas apropiado para la talla americana ó full cut ó corte clásico del brillante.

• Estructura

Característica morfológica que corresponde al modo de cristalización de la piedra, observándose una de las dos particularidades siguientes:

- estrías en las facetas 6
- estratos en el cuerpo de la piedra

Generalmente nuestras piedras presentan estas capas ó estratos, perfectamente observables al microscopio binocular, lo cual puede merecer un cuidado especial en la operación talla.

• Tamaño

Hasta donde sabemos, los diamantes de Venezuela son mayormente pequeños. Examinando un lote al azar en operación de fiscalización Guía No. OG112, observamos la distribución siguiente:

menos de un quilate	24	piedras
menos de un quilate	<u>1951</u>	"
Total	1975	piedras

Las piedras grandes son raras - En 1970 fué descubierta en el Guaniamo una piedra de 57,85 quilates, (adquirida en el sitio por Bs. 65.000 evaluada en 104.000 \$. por el M.M.H. a los efectos del Impuesto de explotación.)

En este aspecto el comercio ilícito hace errática toda investigación y solo se dispone tanto en Venezuela como en gran parte de las áreas de producción de datos indicativos relativos al tamaño: por ej.: lo en Ghana es frecuente la piedra de más de 2 quilates; en Dutoitspan - Sur Africa, el ritmo de aparición de piedras de 50 a 200 quilates es más frecuente que en cualquier otro sitio (minas controladas por De Beers).

En los plazos aluvionales de playas del sur oeste africano las piedras grandes se encuentran en la desembocadura del río Oranje, disminuyendo el tamaño a medida que se aleja uno de la desembocadura (20 piedras/quilata a 200 millas de la desembocadura; explotación en el mar)

• Color

El color es otra característica que se toma en cuenta en la evaluación de la piedra bruta. En la piedra tallada su importancia es menor ya que el valor lo determinan en orden: las proporciones de las facetas, inclusiones, color y peso.

La mayoría de los diamantes son coloreados

Venezuela	Blanco amarillento
Ghana	marrón verdoso muy atractivo
Sur África	generalmente verdoso
Premier Mine	marrón ligeramente aceitoso
Mir-Rusia	Blanco
Sierra Leone	blanco verdoso

• Conclusión.-

El diamante de talla venezolana en términos generales, es un diamante de aluvión de buen tenor; octaedro bien conformado con estratos; pequeño; blanco amarillento.

¿Como se sitúa nuestro diamante con relación a los demás?  
(pregunta formulada a negociantes y talladores de New York,  
Londres, Amberes e Israel)

La respuesta ha sido que no compiten con : Rusia, África del Sur  
Sierra Leone, África Central.

Competen con : Brasil, Guyana, Costa de Marfil y otros.

13.- Comercio del diamante en Venezuela

131.- Legislación:

De acuerdo al artículo 137 del Reglamento de la Ley de Minas, el comercio de oro, diamantes y otras piedras preciosas está permitido solamente a aquellas personas debidamente inscritas en el Ministerio de Minas e Hidrocarburos.

Los comerciantes que tienen formalizada su inscripción ante el Ministerio están en la obligación de suministrar el informe mensual de sus actividades, según lo pautado en el mencionado artículo 137, artículos 5, 6 y 7.

Al presentar este aspecto legal del comercio estamos repitiendo las frases consagradas que se utilizan para recordar que en Venezuela muchos son los que no cumplen con la Ley.

En el caso del diamante están registrados en el MMH 430 compradores con licencias y como se verá más adelante las 2/3 partes no cumplen con lo pautado por la Ley.

133.- Precios1331.- Precio del diamante en la mina

Durante nuestras visitas a las minas del Guaniemo en Octubre de 1970 hemos presenciado numerosas transacciones comerciales entre mineros y compradores instalados éstos en el caserío El Candado, lugar surgió en medio de la selva a 200 kilómetros al sur-oeste de Ciudad Bolívar con motivo de la "bullia" del Guaniemo.

Los precios practicados por los compradores, que por regla general actúan por cuenta de terceros, son variables y dependen de los factores siguientes:

## - Del tipo de diamante

Generalmente se distinguen las categorías siguientes:

• Talla de primera	S. 300/qt	hasta 1 qt
• Media talla	S. 180 - 200/qt	
• Industrial	S. 80 - 100/qt	
• "rayera" reject	S. 50/qt	
• Sort	S. 10/qt	

El número de clasificaciones puede alcanzar 8 y se observa que la finalidad que persigue el comprador es de devaluar el lote, mientras que a nivel de fiscalización por el M.M.H. en Ciudad Bolívar el aumento del número de clasificaciones - 11 (once)-tiene por objeto valorizar el lote. No existen pues criterios unificados y sería muy difícil adoptar la misma clasificación ya que al Ministerio llegan lotes reclasificados.

## - De las condiciones del mercado

Bajo este concepto podemos enumerar la afluencia de piedras, la experiencia del minero, las instrucciones impartidas desde Ciudad Bolívar, Caracas o el exterior a los compradores.

De las condiciones de vida del minero

El Minero organizado en grupo de trabajo, tiene ingresos provenientes de:

- una actividad diaria que rinde Bs 100 a Bs 500 semanales por persona.
- una actividad de envergadura consistente en una explotación a mayor escala donde intervienen la remoción de "grunas" o bloques de varias toneladas en una quebrada; la apertura de un "telín" o canal de desvío o corte de meandro; actividad que ocupa generalmente a cuatro o cinco mineros y que rinde por ejemplo Bs 20.000,00 en un mes al grupo de trabajo.

Los gastos de existencia del minero son por otro lado muy elevados debidos a las condiciones mismas del sistema de Libre Aprovechamiento o sea aislamiento, hostilidad del medio, etc.

Podemos ilustrar lo costoso de la vida con los precios siguientes:

- un almuerzo (presa de pollo + arepa)	Bs 10,00
- un fresco	Bs 3,00
- una cerveza	Bs 5,00
- un kilo de cambures	Bs 6,00
- periódico	Bs 2,00
- pasaje en helicóptero para un vuelo de 5 minutos aproximadamente (equivalentes a trayecto caminado en 6 horas)	Bs 100,00

Por lo expuesto podemos ver que el minero necesita un nivel aceptable de ingresos para hacer frente al alto costo de la vida que impone el medio, viéndose obligado en esas condiciones a aceptar los precios que se ofrecen por la producción encontrada.

En conclusión la explotación bajo el sistema de libre aprovechamiento hace difícil la determinación de los costos unitarios de producción, los márgenes de utilidad entre intermediarios y en general toda evaluación racional de tipo económico, incluyendo la producción misma.

1332.- Precios a los efectos de liquidación del Impuesto de Explotación.

La Ley de Minas admite que el impuesto de explotación de 3% en el caso del libre aprovechamiento, sea cancelado por el comprador en caso de que el minero no pudiera hacerlo. La liquidación de ese impuesto tiene lugar en Ciudad Bolívar y es generalmente un ~~mayorista~~ que centraliza los diamantes provenientes de varios ~~compradores~~ al que presenta una solicitud de liquidación según el modelo anexo.

Es de hacer notar que el mayorista selecciona las piedras en base a una clasificación impuesta por la fiscalía y que en ninguna manera corresponde a la clasificación adoptada en el momento de la compra en el sitio de explotación.

En base a la solicitud de liquidación el M.M.H. comprueba el valor declarado y generalmente aumenta dicho valor en un porcentaje muy razonable sobre el lote total: 2 a 5% según su composición - La planilla de liquidación es la que sirve a los efectos de la cancelación en las oficinas del Banco de Venezuela que actúa como receptor de fondos nacionales.

En base a las planillas señaladas apuntamos los precios siguientes en bolívares:

Clasificación MMH	Tipo de diamante	Bolívares		
		A	S	C
1	Talla 1 más de 1 quilate	(300)	320	20
2	menos 1 quilate	(180)	190	10
3	Talla 2 más de 1 quilate	(220)	245	25
4	menos 1 quilate	(110)	115	5
5	Talla 3 más de ½ quilate	(140)	140	0
6	menos ½ quilate	( 90)	100	10
7	Talla 4 más de 1 quilate	(100)	100	0
8	Menos 1 quilate	( 75)	75	
9	Industrial 1	( 50)	50	0
10	Industrial 2	( 30)	30	0
11	Bort	( 10)	10	0

- A) Valores a los cuales el comprador dice haber adquirido las piedras de los mineros.
- B) Valor fiscalizado.
- C) Diferencia imponible a los efectos del Impuesto Sobre La Renta  
(Utilidad teórica)

1333.-Progresión del nivel de precios.-

Es difícil establecer la ganancia de los intermediarios.

Se puede aceptar una utilidad de 5% por participante - es decir - que desde el minero hasta el mayorista exportador (dos o tres intermediarios) el precio de una piedra aumentaría en un 10 ó 15%, lo que no parece excesivo.

Son excepcionales las variaciones mayores: del estudio del registro de ventas de los compradores que tienen actualizada su situación en la fiscalía del Ministerio de Minas en Ciudad Bolívar, se pudo ver por ejemplo que en Mayo de 1970 el Sr. Ramón Peña vendió al Sr. Visnel Alvarez en Bs. 9.000,00 un lote adquirido en Bs. - 6.800,00 sea realizando una ganancia de 30%. Normalmente este margen oscila entre 4 y 7%.

En verdad, a través del circuito se opera una selección de las piedras que trae como consecuencia un aumento en el valor de los lotes.

Esto lo apreciamos en el ejemplo del IVIC - Instituto Venezolano de Investigaciones Científicas - el cual adquiere diamante industrial destinado a la fabricación de las cuchillas de diamante, siendo piedras escogidas.

De cualquier manera, puede apreciarse que los exportadores de diamantes aún haciendo una ligera utilidad de 5% en cada operación, dado que ésta se repite muchas veces a lo largo del año, hacen un alto beneficio, proporcional a la rotación de su capital durante el período.

14.- Aprovechamiento del Diamante en Venezuela.-

Del total de diamantes producidos en Venezuela (en 1970 508.000,00 quilates) es ínfima la parte aprovechada en el País.

En lo que se refiere al diamante de talla existen unos pocos talleres que en pequeña escala trabajan la talla del diamante. Tenemos el ejemplo en Ciudad Bolívar del Taller Caroní, con 8 personas donde se talla aproximadamente 400 quilates por año, según información recibida en el Taller mismo. Existen otros talleres en Puerto Ordaz, Caracas y la Colonia Tovar.

Se ha estimado que actualmente no excede de 2.000,00 quilates por año la talla del diamante en Venezuela.

El Gobierno Regional en el Estado Bolívar está impulsando el establecimiento de una escuela de talla en Ciudad Bolívar, habiendo ordenado ya los equipos necesarios. Esta actividad merece todo el apoyo gubernamental con miras a desarrollar en Venezuela los equipos humanos para que estos puedan competir en el Mercado Internacional al cabo de unos años, una vez adquirida la experiencia necesaria, lograda en otros países en varias generaciones.

Hay que estar conscientes que la talla del diamante es una actividad altamente especializada y competitiva en Estados Unidos, Europa e Israel. Por ejemplo en este último país existen 12.000 talleres que devengan en promedio sueldos mensuales de 900,00 Ss., determinando esto un costo reducido de talla.

En Israel tuvimos la oportunidad de visitar los Talleres Barik que producen mensualmente 5.000 quilates tallados, variando los costos de la talla entre 15,50 \$ y 27,60 \$ por quilate.

Con respecto al diamante industrial, con excepción del Instituto Venezolano de Investigaciones Científicas, prácticamente no existe el aprovechamiento de este tipo de diamante. El IVIC aprovecha - aproximadamente 200 quilates al año, como se detalla en ficha anexa.

Ejemplo.- Aprovechamiento del Diamante Industrial.-

Instituto Venezolano de Investigaciones Científicas.-

El IVIC utiliza el diamante industrial nacional para la fabricación de las cuchillas de diamantes, para cortes ultrafinos, según técnica desarrollada por el Científico Venezolano Dr. Humberto Fernández M.

Precio de compra del diamante y circuito del mismo.-

El IVIC aprovecha anualmente 200 quilates de diamantes reselleccionados de tipo industrial, por el cual paga a razón de 80,00 Bs/ quilate.

El circuito de adquisición de estos diamantes es:

Mercado Externo.-

Con diamantes de buenas dimensiones y peso inferior a 1 quilate el IVIC fabrica las cuchillas para microtomo de primera calidad las cuales factura así:

. Cuchilla de 2 mm. de ancho, más soporte	120,00 dólares
. Cada 0,1 mm. adicionales	20,00 dólares

El quilate de diamante de este tipo ha sido pagado al minero a razón de 50,00 Bs/quilate. (diamante de primera, panelas), según se desprende de las planillas de declaración del mayorista de Ciudad Bolívar, - valor aceptado por el Ministerio de Minas.

Adquiriendo el diamante a 80,00 Bs/Qt. observamos que hay una diferencia de 30,00 Bs/Qt. que viene siendo la utilidad de los intermediarios esta ganancia no puede considerarse excesiva, máxima tomando en cuenta la selección de la piedra, pero al cabo de un año de negocio de esta naturaleza el intermediario puede llegar a un rendimiento de 200 % sobre su capital dependiendo de la frecuencia con la cual su capital sea rotado.

Ejemplo.- Valorización de la piedra al tallarla.-

Durante el transcurso del estudio se pudieron observar varias operaciones de avalúo efectuadas en el laboratorio de gemología del MMH - Ciudad Bolívar, a petición de compradores interesados en conocer el valor de una sortija personal.

El 15/10/70 se efectuó la experticia de una piedra presentada por el Sr. Splendiani de color amarillento, con un peso de 6,27 quilates (peso estimado con tabla "Weight Calculator" ya que la piedra estaba montada en sortija).

En la operación de avalúo se toman en cuenta por orden de importancia:

- 1.- Las proporciones de la piedra tallada (lupa y microscopio)
- 2.- La existencia de inclusiones, carbonas y accidentes dentro de la piedra (microscopio)
- 3.- El color
- 4.- El peso

La piedra en cuestión fue evaluada en 24.000,00 \$\*. (de haber tenido mejor color hubiera podido alcanzar Bs. 120.000,00)

En la operación de talla el rendimiento es de 50% aproximadamente, o sea que la piedra bruta debió pesar 13 quilates aproximadamente.

El costo de la talla es Bs. 100,00 el quilate o sea que en este caso costó Bs. 1.300,00

Tomando en cuenta el tamaño y calidad de esta piedra, el valor en el sitio de explotación es de Bs. 10000,00, como máximo, haciendo notar que según la especificación del MMH en la fiscalización habría sido evaluada en un mínimo de Bs. 4.140,00.

Puede apreciarse en consecuencia la valorización habida por la piedra en el proceso de talla pasando desde aproximadamente Bs. 12.000,00 - revendida por los intermediarios hasta Bs. 24.000,00 evaluación del gemólogo.

#### OTRAS RECOMENDACIONES

Las recomendaciones que a continuación hacemos guardan relación directa, aunque no aparente, con el objeto mismo de nuestro estudio y están destinadas a corregir, completar o reconsiderar algunos aspectos de la actividad diamantífera en Venezuela.

Algunas de las recomendaciones no conciernen directamente al Ministerio de Minas e Hidrocarburos.

#### Liquidación Impuesto Explotación

Sería recomendable estudiar fórmulas que permitan agilizar los trámites y la propia operación de fiscalización sin restarle su debida importancia.

Se ha pensado que se podría contemplar a partir de un estudio estadístico amplio una liquidación en base al peso de los lotes o sea, bolívares por quilate sin entrar a considerar calidades.

En efecto si existen 2.500 calidades de piedras, ¿porque entrar a considerar 8 clasificaciones dentro del diamante de talla?, ademas no es raro que la talla malogre la pieza por cambio de color, rota etc. quedando el concepto de calidad sin fundamento.

El estudio estadístico sobre un gran número de lotes con distinción de Talla - Industrial-Eort, permitiría establecer 3 valores que equivaldrían actual 3% percibido sobre el valor del lote ó posiblemente superior al 3%.

Concretamente, suponemos que el cuadro de producción para el año -- 1970 sea un cuadro standard, observamos lo siguientes (Libre Aprovechamiento).

Talla	131.106,42	qts
Industrial	172.650,77	qts
Eort	234.983,85	qts
Total	509.661,04	qts
Valor para el impuesto	26.217.073,60	Bs.
Impuesto pagado	800.597,42	Bs.

Si se adoptan valores de referencia tales que permitan gravar el producto en la forma siguiente

Talla	5	Rs/qt.
Industrial	1	Rs/qt.
Bort	0,25	Rs/qt.

Obtenemos el cuadro de liquidación siguiente :

Talla	131.106,42	x	5	=	Rs. 655.532,10
Industrial	172.650,77	x	1	=	Rs. 172.650,77
Bort	204.983,80	x	0,25	=	<u>Rs. 51.246,00</u>
Total Impuesto liquidado					Rs. 879.428,87

#### Licencias de Compradores

En vista de que las 2/3 partes de los compradores con licencia no cumplen con la Ley, sería conveniente reconsiderar el modo de otorgamiento de dichas licencias.

#### Ministerio de Hacienda

De acuerdo a la Ley, Artículo 144, las Administraciones de Aduana deben enviar copia de los Manifiestos de Exportación de Diamantes al MMH. Esto no se cumple. El 5 de Junio de 1954 mediante oficio No. 5903 MMH - pidió al Ministerio de Hacienda el cumplimiento de dicho artículo. Sería conveniente reiterar la solicitud.

#### Control de Lotes de Diamantes en las Aduanas

Parece irrisorio que en las Aduanas de la República no se controle el contenido de las cajitas con diamantes en bruto que se exportan, y cuando se hace como es el caso en Ciudad Bolívar, se coloque el paquete que puede pesar bruto 100 gramos o menos sobre una balanza TOLEDO, que sirva para pesar bultos de hasta 250 Kilos.

Se recomienda utilizar una balanza adecuada, y lacrar los paquetes para evitar el cambio de su composición.

#### Disposiciones Arancelarias

Las cifras de importación relativas a piedras preciosas o semi preciosas, recopiladas por la Dirección General de Estadísticas del Minis-

terio de Fomento son prácticamente inutilizables.

Se debería precisar en el Arancel de Aduanas las preciosas y las semi preciosas; y dentro de las primeras si se trata de brillantes, esmeraldas, rubis, zafiros u otros. El actual Arancel mezcla los varicos - conceptos.

Recomendaciones de interés industrial

A.- Se recomienda evaluar la riqueza de los materiales ya explotados en los placeres de San Salvador de Paúl, con miras al aprovechamiento industrial del diamante- eventualmente mediante licitación pública- ya que ensayos privados han demostrado la posibilidad de recuperar aproximadamente cien dólares en diamantes por metro cúbico. ?

B.- Se recomienda considerar la posibilidad de aprovechar a mayor escala, la experiencia del IVIC en materia de fabricación de cuchillas de diamante para microtomo; experiencia que a través de doce años le ha valido al IVIC en el exterior un gran prestigio.

15. CIPENCI-4 is currently assigned to the section of CIRASH with basic responsibility for guerrilla activity. As a result he is required to spend between 50 and 75 percent of his time outside of Caracas. While this has made him somewhat less accessible to the Station, he is well placed to obtain advance information with regard to possible plans for urban violence or kidnappings, high on the list of Station priorities. He has contributed to two reports during the period. A change in the Minister of Interior has recently been announced, which could result in changes down to the level of CIPENCI-4, especially should CIPENCI-1 leave his position. In the meantime, CIPENCI-4 continues as a valuable Station penetration of CIRASH.

HVCA-18640, 19 January 1972

CIFLUTE July  
Operational Report for Period XXXXXXXXthrough December 1971

5. CIPENCE-4 has been handled since August 1971 by Edgar B. MARTEGANI. It was decided for security reasons to take this agent out of the group of agents handled by the Station Officer conducting liaison, and CIPENCE-4 is thus handled as a truly unilateral penetration of CIRASH. During the reporting period allegations arose as to affiliation of CIPENCE-4 with JKLANCER. (See WH/Miami 12203 and Caracas 17730). The Station is aware of this situation and the agent is handled accordingly. CIPENCE-4 successfully passed his 11mp-teenth SGSWIRL examination on 3 October 1971 and the Station's opinion of this individual continues to be favorable. (See HVCA-9612 for SGSWIRL results). As an indication of the continuing high esteem enjoyed by CIPENCE-4 within the GOV, he was chosen by CIPENCE-1 to accompany the present Venezuelan Minister of the Interior on a month long European vacation in September 1971. It is widely acknowledged that the Minister of the Interior is the leading candidate for the COPEI presidential nomination; should this occur and he be elected the next president of Venezuela, CIPENCE-4 should have a valuable friend. In summation, the Station continues to regard CIPENCE-4 as a valuable Station asset who has an excellent reputation within CIRASH and the GOV. He contributed to two intelligence reports during the reporting period, but his value to the Station lies primarily in operational reporting and his status as a unilateral penetration not known to be in contact with JKLANCER in any way.

Since Subject holds a key position in this organization, he will be able to monitor its intelligence operations as well as Venezuelan political matters.
2. All current traces on Subject are non-derogatory. (See attachment to Form 772 for additional information).

**SECRET****COMMENTS RE DEROGATORY TRACES  
ATTACHMENT TO FORM 772**

1. A POA was requested on Subject in January 1968 for his use as a penetration of Venezuelan General Directorate of Police. Cancellation was requested in February 1968 because of indications that Subject was involved in "clandestine sabotage activity and suspicions that Subject failed to report his activities to CIA. There after, Subject was treated as a "hostile". In the ensuing months Subject was described as "an extremely valuable penetration" because of his important and accurate intelligence information and operational reports. Subject was given a polygraph examination to clear up questions about possible affiliation with Cuban intelligence, unreported association with gangster elements, etc. His responses showed no information which would prevent CIA using him for ops purposes. Request for POA was again requested on 7 September 1968. This POA request was turned down on 15 October due to Subject being an "agent of a foreign power."

2. Since that time Subject has continued to provide verbal and written information reports concerning Communist and subversive elements, guerrilla activities, Soviet activities, sabotage, etc. Subject continues to report accurately and often and has a very pro-U.S. attitude. Subject was again polygraphed on 29 November 1971 (a copy of which is contained in Subject's CI/OA folder). His responses indicated no deception concerning truthfulness of reporting to CIA, no compromise of his U.S. Government connections, non-involvement in illegal arms dealings, etc.

TO : WH/3  
FROM : Interrogation Research Division  
SUBJECT: CIFFNCE/4

29 November 1971

IRD# 72501

BACKGROUND:

Subject, CIFFNCE/4, is a 43-year-old, male, citizen of IDEN A who has been of continuing interest to JKLANC since initial contact. He has permanent resident alien status in WOCORK as does his wife. He was last SGSWIRLED on 23 May 1968 with favorable results. Subject claimed that during service with IDEN B and previous service with JKLANC, he had been SGSWIRLED and estimated the total number of SGSWIRLS he has had at twelve to fifteen.

PROCEDURE:

On 3 November 1971, CIFFNCE/4 was given a SGSWIRL at a covert site in IDEN C. Both the English and Spanish languages were utilized in discussing the SGSWIRL and the Case Officer, Edgar E. MARTEGANI, served as interpreter. During the SGSWIRL, the English language was used. The undersigned was introduced as Mr. Bob MOUNT from WOCORK.

PURPOSE:

The SGSWIRL was requested by Fdgar E. MARTEGANI to determine whether Subject knows if any member of IDEN D and specifically if IDEN E is aware or suspects his current JKLANC connections; if he has been requested to work against LNLUTE; if since May 1968 he has been in contact with or heard about IDEN F or IDEN G; if since May 1968 Subject has been involved in illegal arms smuggling. Specific questions utilized during the SGSWIRL are given later in this report.

CONCLUSION:

There were no unresolved reactions indicative of deception. It is the opinion of the undersigned that Subject answered all questions truth-

fully. Apparently Subject is unaware of any compromise of his LNLUTF connections; has been truthful in his reports to JKLANC; has not been involved in any illegal arms dealings other than smuggling weapons into IDEN A for his personal use and the personal use of other members of IDEN D and related organizations; has not been asked to work against LNLUTF and has received no information from or about IDEN F or IDEN G.

DETAILS:

Subject was co-operative throughout the SGSWIRL and did not hesitate to assist in rephrasing questions and explaining his responses. He seemed open and frank in response to all queries. Subject exhibited a response to the question concerning IDEN F and IDEN G. Discussion of the issue elicited the information that Subject had received some information concerning a son of one of these individuals. He also mentioned that on a trip to IDEN H a few years ago he had spoken by telephone to IDEN I but no mention had been made of IDEN F or IDEN G. Subject also showed a response to the question concerning illegal arms dealing. He explained that when he travelled outside of the country he brought back pistols, rifles, and on one occasion a shotgun. These weapons were for his personal use or were purchased for friends such as IDEN E or members of IDEN D. He stated that the weapons were brought in illegally and that even possession of the rifles (which were for his own use) was illegal. Specific questions concerning these arms dealings were asked. Based on the sessions results, it appears that while Subject has smuggled arms into IDEN A and possesses illegal arms, he has not been involved in smuggling large amounts of arms for personal profit or engaged since May 1968 in smuggling weapons of war into IDEN A.

Specific questions utilized during the SGSWIRL were as follows:

Were you born in IDEN J? Yes

Did you reside in WOCORK? Yes

Are you concealing the identity of anyone who knows you work for JKLANC?  
No

b. CIFENCE-4

CIFENCE-4 continued to be a reliable, steady Station asset who continues to be one of CIFENCE-1's closest and most trusted associates. CIFENCE-1 has a great deal of confidence in CIFENCE-4 and always assigns him the most difficult jobs which he feels none of his other employees can handle. During a great deal of this reporting period, CIFENCE-4 was out of Venezuela on special missions for CIFENCE-1. He travelled to Lima, Peru to send a bomb which would not explode to the home of Perez Jimenez, went to Curacao to conduct a special investigation and spent considerable time on the Colombian border. He contributed to two disseminated intelligence reports dealing with military intelligence about Colombian activities collected by a Venezuelan security service and the reported presence of eleven Venezuelan fishing boats and one warship in Colombian territorial waters. CIFENCE-1 has appointed CIFENCE-4 chief of the division of CIRASH

201

which is responsible for coordinating all of the activities of the CIRASH offices located outside Caracas. Such a position should offer CIFENCE-4 access to various types of information and targets of interest to JKLAICE. As was said in the last CIFLUTE operational report, the Station continues to think very highly of CIFENCE-4 and looks forward to a continuing productive relationship with him.

3. CIFENCE-4

CIFENCE-4 continued to be a reliable, steady Station asset who enjoys the confidence of and has a very close working relationship with CIFENCE-1. During most of the reporting period, he was in charge of the surveillance of the newly arrived Soviet diplomats and was quick to pass to the Station any information coming into his possession which he felt would be of value to JKLANC. Because most of his time was devoted to coverage of the Soviets, he was unable to give the Station the large variety and number of reports which in the past has been his custom. The Station continues to think very highly of CIFENCE-4 and looks forward to a continuing productive relationship with him.

## 4. CIFENCE-4

1970

CIFENCE-4 continues to be a reliable and steady Station asset who enjoys the confidence of and has a very close working relationship with CIFENCE-1. His recent acquisition of Venezuelan citizenship has increased his stature with CIFENCE-1 and among the Venezuelans with whom he works. He continues on his own to provide information coming into his possession which he feels will be of interest to JKLANC and also continues to pass to the Station numerous reports from CIFENCE and other security-intelligence agencies. His most valuable contribution during this reporting period was the information indicating that a CIFENCE officer had information which could have led to the discovery by CIFENCE of the Station's CIGRAPE operation. CIFENCE-4 was able to convince this officer in a very discreet, innocuous manner that the information was of no value and should not be brought to the attention of CIFENCE-1. The officer was convinced, and no investigation was conducted. In the meantime, the Station completely disbanded the CIGRAPE operation. At each meeting with his Case Officer, CIFENCE-4 is asked if there is anything new in regard to this case and he has replied there are no new developments and feels the issue is a dead one. The Station feels the original information from CIFENCE-4 is the type that really proves the value of a good asset. Interesting documents provided by CIFENCE-4 during this reporting period include a list of all personnel working in Venezuelan diplomatic missions abroad, a CIFENCE report about the investigation of the purchase of arms in Miami by unknown elements in the Venezuelan Ministry of Defense, a package containing several documents from CIFENCE and other sources about Communist activities in Venezuela, a report dealing with possible conspiring against the GOV by Venezuelan military officers, a list of various subversive organizations located in several different countries, a report about the possible presence in Venezuela of Colonel Caamano Dene,

a report about the reorganization of CIFENCE, a list identifying automobile license plates used by foreign diplomats in Venezuela, a list of personnel employed by CIRASH, a key to the communications code used by CIRASH, the CIFENCE report about the surveillance of YEBALM during his most recent trip to Caracas and copies of CIFENCE reports about the surveillance of the first two Soviet diplomats now in Caracas. In addition, CIFENCE-4 has conducted name traces and identified automobile license plates for the Station and soon will provide unidentifiable license plates for use by the Station on vehicles rented for surveillance and other operational needs.

CIFENCE-4 is chief of the operations section of CIFENCE and, as such, has responsibility for surveillance of Soviet and Bloc personnel in Venezuela. Through him, the Station has the means of monitoring quite closely the movements and activities of these persons. Also, we are able to direct CIFENCE-4 to conduct special surveillances of Soviet and Bloc person who may not be under surveillance by CIFENCE as a routine procedure. The current position of CIFENCE-4 within CIFENCE is very good and should remain so as long as CIFENCE-1 remains as head of CIFENCE. CIFENCE-4 feels there is a good possibility that if CIFENCE-1 leaves his present position he (CIFENCE-4) will be removed from CIFENCE. Should this happen, the Station will lose access to an important position within CIFENCE and CIFENCE-4 will lose his principal source of income. CIFENCE-4 has said several times he would like to have a career with JKLANC and would be willing to work in any country of the world for us. If CIFENCE-4 eventually loses his position within CIFENCE and is unable to obtain another position in Venezuela that would provide access of interest to JKLANC, Headquarters may wish to consider using him in some other country.

1970

See HVCA 17828, 26 October 70, re CIFENCE belief that CIGRAPE/2 is working  
was told to  
for CIA. CIFENCE/4 advised the station of this, and will do what he can  
to initiate a full-scale CIFENCE investigation of CIGRAPE/2, under his own  
direction, in order to remove the suspicions. He said it would be hard to  
do this without attracting undue interest , but he will remain alert to the  
problem and try to take charge of any investigation that may get under way.

<p>REF: HVCA-17611, 14 May 1970</p> <p>A.R.: Paragraphs 2 and 3 below</p> <p>1. I appreciate Caracas' offer for possible future contact with CIFENCE-4 in the event of another emergency situation in Trinidad, a possibility which should not be totally ruled out. I was aware that four or five Venezuelan officials had arrived in Port of Spain shortly after the declaration of a state of emergency, but I had no contact with any of these individuals during their stay here.</p> <p>2. I agree with CIFENCE-4 that it would have been to the station's advantage to have had contact with him during the period of the Regiment mutiny. To this end, I propose the following contact arrangements. When CIFENCE-4 has arrived in Port of Spain and has gotten himself set up, he should call Identity A on Identity B during normal office hours (0800-1700). One hour after telephonic contact has been made with Identity A, CIFENCE-4 will be picked up in Identity C at Identity D. In order to establish bona fides, the case officer will ask of CIFENCE-4 "Are you a friend of Pedro's?". CIFENCE-4 should respond "Yes, and of Tomas also.". Recognition signals having been exchanged and authenticated, I would feel free to ask CIFENCE-4 to keep me informed of developments from his side as they occurred.</p> <p>3. Action Required: As Stated Herein			
<p>1. CIFENCE-4 (IDENTITY under separate cover for Port of Spain), an agent of the Caracas Station, was in Port of Spain during the periods 21 - 22 April 1970 and 24 April - 3 May 1970. CIFENCE-4 said the purpose of his trip was to protect Venezuelans in Trinidad and to collect information about the situation in Trinidad for the Government of Venezuela. He gave the Caracas Station a copy of the report he prepared for the Venezuelan Government about his activities in Trinidad. A copy of this report is being sent under separate cover to Port of Spain <u>for the information of the Station only.</u></p> <p>2. CIFENCE-4 said it was too bad he had no contact with JKLANC while in Trinidad, as he feels he could have provided timely on-the-spot information. If a situation in Trinidad similar to the previous one again arises, CIFENCE-4 feels he may have to return to Trinidad. If this happens, he is willing to have contact with JKLANC if so desired. The Port of Spain Station is requested to advise the Caracas Station if this contact would be desired and, if so, to send Caracas a contact plan. Upon receipt of this plan, Caracas will advise the name and recognition signal CIFENCE-4 will use. CIFENCE-4 speaks fairly good English, so there should be no language barrier in communicating with him.</p>

operations smoother. Unfortunately, CIHURON-1's men are already planning a reorguard action to make CIFENCE-3's job as difficult as possible. The net result of this switch, however, has been to somewhat increase efficiency of the two services and to materially increase JKLANCE unilateral access to each. For awhile, this reorganization will be beneficial, but—because of the personalities of CIHASH-17 and CIFENCE-1—we do not expect either CIHURON-1 or CIFENCE-3 to indefinitely have smooth sailing.

2. CIFENCE-4

CIFENCE-4 provided verbal and written information reports about various subjects of interest such as activities of Communist and other subversive elements, guerrilla activities, counterfeiting of money and documents, sabotage, information about and activities of Soviets visiting Venezuela, kidnappings of well-known persons in Venezuela, CIFENCE operations and internal problems of CIFENCE. His position in CIFENCE as Chief of Operations provides him access to practically all written reports and documents prepared and received by CIFENCE. His daring as a dedicated agent for JKLANCE has enabled him to provide the Station with copies of several of these reports and documents. During this reporting period he has provided 119 copies of such reports and documents.

Some of the more significant requests levied on CIFENCE-4 during this reporting period include the following: 1) assessment for the Station's SB Section of an employee of the Venezuelan Government's Oficina Central de Informaciones (OCI), 2) for the SB and CP Sections of the Station, collection of information about and assessment of a former employee of the local TASS office in Caracas, 3) provision for the SB Section of a list of the names and license plate numbers of the users of all diplomatic automobile license plates in Venezuela, 4) investigation for the Station's CP Section of the robbery of a large sum of money reportedly destined for financing the clandestine manufacture of arms, and 5) for the Station's Case Officer in charge of student operations, collection of information about and assessment of a former Station asset in whom there is a renewed operational interest.

S E C R E T

~~CIFENCE-4~~

CIFENCE-4's current Case Officer is Gordon K. RIJOCK who meets with CIFENCE-4 in safehouse number 45 which was obtained during this reporting period. When RIJOCK wants to schedule a meeting with CIFENCE-4, RIJOCK's wife who speaks native Spanish with no American accent, telephones CIFENCE-4's home, identifies herself as "Maria" and asks to speak with the true first name of CIFENCE-4. If CIFENCE-4 is at home, RIJOCK's wife tells him she wants to meet with him at a certain time on a certain date "at the usual place" (which means the safehouse) and asks if the time and date are acceptable to him. If CIFENCE-4 says yes, RIJOCK meets with him at the safehouse. If he says no, RIJOCK's wife asks him to set a time and date. If these are acceptable to RIJOCK, the meeting is thereby scheduled and held. If RIJOCK wants CIFENCE-4 to pick him up in his automobile, "Maria" says she wants to meet him at a certain time on a certain date "at the location near my home". If the time and date are acceptable to CIFENCE-4, RIJOCK then walks to a site a few blocks from his home where CIFENCE-4 picks him up in his private automobile. If the time and date are not acceptable to CIFENCE-4, then "Maria" asks CIFENCE-4 to set a new time and date which, if acceptable to RIJOCK, serve as the schedule for the car pickup meeting. If CIFENCE-4 is not home, "Maria" requests that CIFENCE-4 telephone "Maria" as soon as possible. Upon returning to his home and receiving the message, CIFENCE-4 telephones RIJOCK's home from a public telephone, identifies himself as "Raul" and asks to speak to "Roberto". If RIJOCK is home, he and CIFENCE-4 talk directly and arrange a meeting. If RIJOCK is not home, CIFENCE-4 says "Raul" is calling and either he wants "Roberto" to contact him or he will call "Roberto" later. If the message is for "Roberto" to call him, then "Maria" telephones CIFENCE-4's home and follows the procedure described above. (NOTE: RIJOCK's wife makes all telephonic contact with CIFENCE-4's home, to give the impression to anyone monitoring CIFENCE-4's telephone that a native Spanish speaking "girlfriend" of CIFENCE-4 wants to talk with him.

In the event RIJOCK wishes to contact CIFENCE-4 while he is in his office, "Maria" telephones CIFENCE-4's wife, identifies herself as "Maria", says she wishes to speak with the true name of CIFENCE-4 and asks his wife to tell him to call her at a certain time. CIFENCE-4's wife then telephones him in his office and gives him the message from "Maria". If the time is acceptable to CIFENCE-4, he telephones RIJOCK's home from a public telephone and either arranges a meeting schedule with "Maria" (per prior instructions from RIJOCK) or speaks directly with RIJOCK to

arrange a meeting. If the time is not acceptable to CIFENCE-4, he gives a new time to his wife who immediately thereafter conveys the new time via telephone to "Maria" who in turn conveys it to RIJOCK. If CIFENCE-4 is not in his office, his wife leaves a message for him to call her as soon as possible. In such a case, his wife advises "Maria" that he is not in his office but when he calls her, she will tell him to call "Maria" as soon as possible. A meeting is scheduled when CIFENCE-4 calls and talks to either "Maria" or RIJOCK. If it is urgent for RIJOCK to talk to CIFENCE-4 as soon as possible, CIFENCE-4's wife tells CIFENCE-4 that "Maria" wants to speak to him as soon as possible. If an emergency situation necessitated immediate contact with CIFENCE-4 in his office and his wife was not available to telephone him, "Maria" would telephone him in his office.

In the event RIJOCK and/or CIFENCE-4 do not want to meet in the safehouse and do not want a car pickup at the site agreed upon, a new site is agreed upon during the course of the telephonic contacts described above. For future use, CIFENCE-4 and RIJOCK will make a list of primary and alternate meeting sites and assign numbers to each site selected. During telephonic contacts to establish meetings, only numbers will be used to designate the location of the meetings.

CIFENCE-4 and RIJOCK will discuss and prepare plans for contact under emergency/contingency conditions and for emergency re-contact. These plans will be forwarded to Headquarters as soon as they have been prepared.

SRAC is not used or contemplated for contacts with CIFENCE-4.

- \* Advised INS/Miami not familiar with "Emergency Venezuelan Passport" and would not consider it acceptable in any event without U.S. visa. Mentioned that it presumed that CIFENCE-4 and family have been out of U.S. longer than one year and therefore will be probably questioned by INS/Miami. WH/Miami has contacted INS Inspector in Miami who will handle case discreetly if complications arise after couple enters U.S.
- \*\*Reported no problems foreseen when CIFENCE-4 and family enter U.S. and replied to questions from WH/Miami on how couple is to fill out their requests for U.S. reentry permits and CIFENCE-4's request for Preservation of Resident Alien Status.

## MEMORANDUM TO THE RECORD

FROM: M. Berger, WH/3/V

SUBJECT: Naturalization of CIPHER/C/4's Wife

1. John Rooney of OS/AAS informed the Desk on 19 January 1960 that he had been mistaken when he said that CIPHER/C/4's wife could be naturalized two years after C/4 receives his naturalization. C/4's wife will have to wait three years. It is planned to inform C/4 of this change when (and the Station) when C/4 comes to the U.S. to process his application.

MEMORANDUM FOR: Alien Affairs Staff, Office of Security  
ATTENTION : Mr. John Rooney  
SUBJECT : Luis Clemente POSADA Carriles (201-300985)  
REFERENCE : Caracas 4018 (IN 87480) copy attached

1. Caracas Station has requested Headquarters assistance in resolving as quickly as possible a citizenship question concerning Subject. In view of Subject's operational importance to the Station we would appreciate any effort your office could make to obtain a favorable decision in this matter.

2. Subject is an employee of the Directorate for Intelligence and Prevention (DISIP) which is the successor organization to the Directorate General of Police (DIGEPOLO). As the Station Caracas penetration of this organization, Subject holds a key position and is able to monitor intelligence operations conducted by DISIP as well as internal Venezuelan political matters. In this position, Subject is a highly valued asset of the Station. For this reason, the Station desires that his operational position be protected and, at the same time, his future as a U.S. Citizen not be jeopardized.

3. Since Subject actually obtained his own job through a friend in DISIP and made his own travel arrangements, the file does not reflect what type of documentation he has other than an expired reentry permit mentioned in the reference. A biographic data sheet is attached which gives the main points in Subject's background including his U.S. military service.

4. The primary concern at this point is whether accepting Venezuelan citizenship for operational reasons will destroy or jeopardize in any way, Subject's plans to become a U.S.

James S. Hart

Investigaciones realizadas.

A

En entrevistas realizadas con el Sr. CONSUL DE VENEZUELA EN MIAMI, Sr. ALBERTO PEREZ PEREZ, me dio a conocer, lo siguiente:

a- Que habia recibido una comunicación por escrito del Sr. CAMPOS CRUZ MELIUS, Encargado \_\_\_\_\_ de la Dirección Principal de Gobernación del Ministerio de Relaciones Exteriores, con fecha 15 de Octubre del corriente, donde le comunicaba que el próximo día 20 viajaría a MIAMI el Sr. JAMES S. HART, con el objeto de buscar su licencia de piloto comercial que se lo había extraviado.

Adjunto copia de la carta.

b- Que según noticias recibidas del antiguo CONSUL, un americano llamado HENRY KLINE DOWDIE, le había informado que JAMES S. HART vendría próximamente a MIAMI con el objetivo de comprar aviones a los traidores clandestinos.

Ese mismo día 20 de Octubre, solicitó la cooperación de las Autoridades Federales de la Aduana de MIAMI para que se chequearan los aeropuertos, esperando la llegada de KLINE.

La solicitud se la hizo al Sr. SHANNON S. SOMMERS, Agente Especial y Encargado de la Oficina de la Aduana en MIAMI, el cual me prestó su cooperación, pidiendo agentes a vigilar los vuelos de Líneas Aéreas que venían de VENEZUELA. Así mismo sus agentes chequearon los vuelos de aviones privados y los vuelos de aviones de carga. El chequeo permaneció activo en los momentos de redactar este informe.

Pudó chequeada la FAA (Federal Aviation Agency), la-

que donde HIRE tendría que renovar su licencia de piloto. Posteriormente me entrevistó con el Sr. STANLEY HIRE en MIAMI cuya dirección es 7211 S. Dixie Hwy., West Miami Beach, Miami, su teléfono es el 5321595. En entrevista se indicó en el Hotel Columbus en Miami el 21-10-69 a las 14.00 hrs.

El Sr. DE WITT me manifestó que el día anterior a la fecha anterior se manifestó que vivo en JACKSONVILLE, Flia., en donde habría tenido una conversación con HIRE y había quedado en proyecto la compra de un número indeterminado de armas de guerra.

Según DE WITT, la compra de dichas armas la realizaría HIRE alrededor de la segunda quincena de Octubre, por lo cual ellos (STANLEY y DE WITT) lo estaban esperando.

El Sr. DE WITT manifestó que HIRE, compraría armas y equipos de guerra por una suma superior a \$ 1000000 (un millón de dólares) y que él en representación de HARRIS SHANNON estaba dispuesto a vender la información de todo la transacción en un millón de dólares. La información según DE WITT, consiste en dar los nombres de las personas involucradas en la transacción (algunas viviendo en Miami) y entregar total la información concerniente a la compra y traslado de las armas.

Como me pareció absurda la solicitud de un millón de dólares por una información lo hice observar a DE WITT, y dijiero que no había ningún traficante clandestino de armas capaz de suministrar esa cantidad y segundo que al Gobierno de VENEZUELA, no le interesaría pagar una cantidad semejante por esa información. Quedamos en que en caso que HIRE volviera por HIRE o hiciera contactos conmigo, él no avisaría, llamando al Consul de VENEZUELA en MIAMI y trataríamos de nuevo sobre este asunto.

#### OBSERVACION

- Es indiscutible que HIRE haya entrado en comunicación con HIRE y STANLEY para la compra de armas.
- Para la compra de cantidades de armas en el mercado clandestino es necesario ver a varios traficantes.
- Los grandes traficantes de armas en los Estados Unidos se encuentran en New Jersey, N.Y.

<p>1. The attached outline was taken from a confessed guerrilla, recently arrested by CIRASHI in the city of Barquisimeto, Venezuela. When interrogated by AMCLEVE-15 and others, the arrestee said he did not know where the outline came from; what language it was in; and, in fact, said it did not belong to him.</p> <p>2. Various Station officers and assets have studied the outline, and the consensus of opinion is that it is probably Turkish or a middle-eastern language.</p> <p>3. It is requested that Headquarters contact the appropriate offices in an attempt to ascertain what language the outline is written in, together with a translation of its contents. Although Station personnel contacted felt it unlikely, the possibility exists that the outline is in code.</p>

MEMORANDUM FOR: CI/OPS  
SUBJECT : AMCLEVE-15 (201-300985)

1. Subject, a Cuban now living in Caracas, Venezuela, is a Station Caracas penetration of the Venezuelan General Directorate of Police and of the Special Group, a smaller, somewhat autonomous unit within DIGEPOL. A POA was requested on Subject on 25 January 1968, to use Subject as stated above. On 1 February 1968, WH/3/V requested cancellation of the POA request because of indications that Subject was involved in clandestine sabotage activity and there were suspicions that he had failed to report his activities to CIA or DIGEPOL. Station Caracas was directed to handle Subject as a "hostile." The Station was advised that they could maintain contact with Subject as a source of information on activities of DIGEPOL and the Special Group but that no requirements were to be levied on him. The Station was advised that they could make spot payments for information received from Subject. CI/OPS co-ordinated on these directions to Station Caracas.

2. The Station acknowledged their instructions but demurred on Headquarters' interpretation of AMCLEVE-15's activities. The Station stated, in effect, that assets are often unsavory individuals, who are never under complete control and who seldom disclose the complete range of their activities to their supervisors. The Station added that they were interested in Subject because of his position as a "trusted confidant" of certain highly placed Venezuelan security officials.

3. In the ensuing months the Station came to describe Subject as "an extremely valuable penetration" because of the intelligence information and operational reports he furnished. For example, he reported on the involvement of the Venezuelan military in a Cuban exile plan to attack Cuba. And, he also reported on a plan of Cuban exiles to ship arms from Venezuela

301

as part of an infiltration scheme. He has reported such operational information as a description of the capabilities, layout and equipment of DIGEPOL telephone tap operations. Included in this information was his report that at least on paper, the U.S. Embassy was a target for tap operations. He has also reported on the personalities and workings of the organizations with which he is associated. At the same time the Station had an independent report that Subject was involved in a scheme to obtain "curare poison for approximately forty hypodermic needles." To avoid exposing the source of their information the Station did not query AMCLEVE-15 about the matter. The Station said that they disapproved of his involvement in wild Cuban exile schemes but that Headquarters restrictions in February 1968 prevented the Station from discussing this involvement with him.

4. In May 1968, the Station informed Headquarters that they believed that Subject was collaborating fully with CIA and, further, they believed that he would not expose, inform, or work against CIA. They added that Subject was still capable of engaging in independent Cuban exile activity without informing his Case Officer. The Station also requested a polygraph examination for Subject.

5. Subject was given a polygraph examination to resolve specifically his bona fides, possible affiliation with Cuban Intelligence through relatives, unreported association with gangster elements, thefts from CIA and other questions involving possible derogatory information on Subject. Subject's responses, described as substantially truthful by the examiners, appear to contain no information which would prevent CIA's operational use of Subject. On only one question, that involving Subject's association with an alleged racketeer, Lefty Rosenthal, did sensitivity persist. The examiner commented, "...In fairness to Subject this sensitivity is believed generated by genuine uncertainty over the amount of Para military items which he had been instrumental in getting for Rosenthal from Cuban exile arms supplies."

6. Station Caracas has requested that they be allowed to cease treating AMCLEVE-15 as a "hostile" and that the restrictions cited in Paragraph one, above, be lifted to permit more effective utilization of this well-placed penetration agent. WH Division concurs in this request. CI/OPS concurrence is requested in authorizing full operational use of AMCLEVE-15 as a penetration agent into the Venezuelan General Directorate of Police (DIGEPOL) and as a penetration of Roberto UZCATEGUI's Special Group within DIGEPOL.

The Station said that they disapproved of his involvement in wild Cuban exile schemes but that Headquarters restrictions in February 1968 prevented the Station from discussing this involvement with him.

4. In May 1968, the Station informed Headquarters that they believed that Subject was collaborating fully with CIA and, further, they believed that he would not expose, inform, or work against CIA. They added that Subject was still capable of engaging in independent Cuban exile activity without informing his Case Officer. The Station also requested a polygraph examination for Subject.

5. Subject was given a polygraph examination to resolve specifically his bona fides, possible affiliation with Cuban Intelligence through relatives, unreported association with gangster elements, thefts from WOFIRM and other questions involving possible derogatory information on Subject. Subject's responses, described as substantially truthful by the examiners, appear to contain no information which would prevent CIA's operational use of Subject. On only one question, that involving Subject's association with an alleged racketeer, Lefty Rosenthal, did sensitivity persist. The examiner commented, "...In fairness to Subject this sensitivity is believed generated by genuine uncertainty over the amount of Para military items which he had been instrumental in getting for Rosenthal from Cuban exile arms supplies."

6. Station Caracas has requested that they be allowed to cease treating AMCLEVE-15 as a "hostile" and that he be processed for POA/OA to permit more effective utilization of this well placed penetration agent.

1. Attached are four copies of Subject's MOC.

2. As the Desk is aware, the last word from Headquarters was that AMCLEVE-15 was to be treated as a "hostile" and that full clearance was being withheld pending his SGSWIRL. He has now been SGSWIRLED, and to the Station's knowledge, the test was favorable although an official Headquarters report has not been received. A PRQ Part I was submitted on Subject on 29 May 1968. Therefore, it would be appreciated if the Desk would contact the appropriate Headquarters officials and advise the Station of AMCLEVE-15's official status. We assume that he will be fully cleared and that a POA will be issued followed by an OA after the Station submits PRQ Part II.

3. Headquarters recently inquired as to Station thoughts on including AMCLEVE-15 in the CIFLUTE Project rather than making AMCLEVE a separate project. The Station is completely in accord with this idea although it will probably necessitate funds being shifted from CIGUSTY to CIFLUTE. However, a separate dispatch will be prepared on this subject.

4. The Station realizes that AMCLEVE-15's clearance has been a thorny problem to the Desk and hopes that we can now clear it up once and for all.
