James A. PERM, Jr., mailed two letters from Washington, D. C., on 29 June 1955, one to his failer, and another to Severino D. COMEZ; however, in so doing, PERM placed the letter to his father in the envelope addressed to COMEZ, and the letter to COMEZ in the envelope addressed to his father. When the letters were received by PERM, Sr. and COMEZ, both noting the error, they exchanged letters. However, COMEZ considered the contents of the letter he had at first received important enough to turn over to his brother M. Leal GOMEZ, who in turn referred it to the Boston Office of the FBI.

The letter, in substance, indicated that while FERNY was serving in South America, under cover for this Armey, he had revealed his true status to his wife's father, her GUNSALVES, on a visit to South America, and who later had revealed this information to PERNY's father. In correspondence following FERNY's father having become knowledgeable of FERNY's true status, he indicates that therein he night have intimated that his work was not so hush-hush, and that on that basis FULL's father "had dropped his guard" in effect, and had told others of FERNY's true status. This letter was a warning to PERNY's father that he should attempt to correct the indiscretion of revealing FERNY's status while he was in South America. The letter refers to other letters which FERNY indicates contained information revealed through indiscretion on his part, and which he asks his father to destroy.

According to our records, PRINY was granted an Operational Clearance on 22 May 1953, for use as a witting informant of as a contract agent on anti-Communist student activities. Le tas weed as a contract agent from September 1953 to Pebruary 1955 in Primil under Lis cover.

He is of Formulass extraction, and he or his father had changed the family name for the Table visit with the man was C. SALVES.

She was a fraction and the family prior to attendance at North-

He attended Northeastern University from 1947 to 1951 and received an AB Degree; Boston University from 1951 to 1952 where he received an PA Degree do Latin American Regional Studies; and at Vanderbilt University from 1952 to 1953 working taxable a Pholo Dogree.

the letter intended for PENY's father, advised the FBI that he, CONT, had attended Boston University during the period PULLY was studying under HALPERIN. ONEX was of the opinion that the HALPERIN-PULLY relationship was more than just the professor-student type because PENY saw HALPERIN during the evenings, but never told COMEZ what he discussed with HALPERIN.

OCMEZ also advised that about June 1953, just before PERRY's departure for Rio de Janeiro, PERRY called HALPERIN on the telephone and at
that time HALPERIN was under investigation. PERRY told GOMEZ that
HALPERIN was in a predicament, and that he, PERRY, felt sorry for himEarlier PERRY had told GOMEZ that HALPERIN had a lot of influence in
Washington, and was going to get a job for FERRY.

Washington, and was going to get a job for FERRY.

According to the FBI, the FALFRIN mentioned above, accounts to be identical with jurice Hyman HALFRIN, former employee of OCS, who was information for transmittal to the Soviets.

PERFY recently contacted this Agency requesting permission to state that he had worked for the Agency in his application for employment with USIA. WH Division, to whom this request was formered, was advised that PERFY was not to disclose his west employment with this Agency. By Division, in turn, informed Security of their desires that USIA be informed of PERFY's past connections with this Agency.

Security, on the basis of the above request by NH Division, contacted the appropriate person in USIA and advised them on a controlled basis of PERRI's former affiliation with this Agency.
